Annwyl Andrew

I have agreed with Adam Price, in the context of the Co-operation Agreement, a suggested way forward on Senedd Reform and, accordingly, we are writing to the chair of the Senedd Special Purpose Committee setting out our agreed position. I attach a copy of that letter.

I would like the Welsh Government to develop its preparatory work now based on the position we have jointly set out. In due course we expect to receive the report of the Special Purpose Committee and this will provide a formal basis for our forward work agenda.

Clearly this is a hugely significant body of work for this administration and I am grateful for the expert support from the civil service as we seek to progress this.

Yours sincerely
