Farmers' Union of Wales' response to the Welsh Government Permitted Development Consultation

Re: Welsh Government Permitted Development Consultation Document

Dear Whom It May Concern,

The Farmers' Union of Wales (FUW) supports the proposal to reintroduce Part 39 of Schedule 2 to the General Permitted Development Rights for the protection of poultry and other captive birds.

Given what is now becoming an annual occurrence of Avian Influenza infection being carried ashore by migratory birds, it is imperative that protective housing can be erected quickly in response to Government advice and requirements without the need for lengthy planning application processes or risk of enforcement notices. This will enable keepers to protect kept birds from the risk of infection from wild birds much sooner.

I trust that due consideration will be given to the above.

Yours sincerely
