Questions

Q4. Q1. Should the additional days granted by Class A of Part 4A be retained permanently, permitting temporary uses to take place for up to 56 days (28 days for specified uses) in a calendar year?

Yes

Comments:

The additional days should be retained permanently as they enable rural businesses to provide temporary facilities for campsites, festivals, etc at times when a higher number of holiday makers visit rural areas, such as during school holidays. Rural businesses can allocate part of their land for this purpose on a temporary basis so that it does not make significant changes to their existing land based enterprises (such as livestock and cropping enterprises).

Q5. Q2. Do you have any evidence as to any benefits and impacts as a result of introducing the additional number of days for temporary uses to take place since April? If yes, please specify.

Yes

Comments:

We used the additional number of days for temporary uses to provide a pop-up campsite during the summer months. We were able to utilise the field selected at a time when we did not require it to be grazed by livestock or harvested for forage.

We found that the temporary pop-up campsite provided an additional income stream that we would not have had from our farming enterprises. We were also able to provide camping facilities for visitors to the area who may not have been able to find accommodation in the area otherwise.

Q6. Q3. Do you have views on whether there should be additional restrictions on the use of this PDR to mitigate against potential impacts of making this permanent? If yes, please specify.

No

Q7. Q4. Should the number of days for holding a market generally be extended? If Yes, what is an acceptable number of days for holding a market? What conditions should apply to manage the planning impacts?

No Response

Q8. Q5. Should any additional days over the permitted 14 days be provided for markets operated by or on behalf of a local authority?
