

Llywodraeth Cymru
Welsh Government

21 August 2025

Dear ,

ATISN 24990 Disused coal tips

Thank you for your request which I received on 25 July 2025. You asked for:

- 1) Specific details of the actual geographic locations of each of the disused coal tips identified by Local Authority area; and
- 2) copies of the actual information provided by each responsible body to the Welsh Government in assembling this summary list.

Our response

A copy of the information relating to the first of part of your request (see bullet point 1. above) is provided at Annex A and provides a Grid Coordinate for the centre point of each disused coal tip in The National Disused Coal Tips Dataset. The data is correct as of May 2025. Online Maps are already in the public domain at this web address:

<https://datamap.gov.wales/maps/disused-coal-tips-in-wales-map/> .

I have decided that, for the second part of your request (see bullet point 2. above), this is excepted from the requirement to release under Reg 12(4)(b) 'request is manifestly unreasonable' of the Environmental Information Regulations 2004 (EIR).

There is no set definition of what constitutes 'manifestly unreasonable' under EIR, but the appropriate limit set out in the Freedom of Information and Data Protection (Appropriate Limit and Fees) Regulations 2004 provides the minimum cost that could invoke this exception. The appropriate limit specified for central government is £600. This represents the estimated cost of it taking over 24 hours of time to comply with the request.

From my initial assessment I estimate it will take between 4-5 working days (28 to 37 hours), so some £700 to £925, to go through our filing to identify and extract the information you have requested.

Rydym yn croesawu derbyn gohebiaeth yn Gymraeg. Byddwn yn ateb gohebiaeth a dderbynnir yn Gymraeg yn Gymraeg ac ni fydd gohebu yn Gymraeg yn arwain at oedi.

We welcome receiving correspondence in Welsh. Any correspondence received in Welsh will be answered in Welsh and corresponding in Welsh will not lead to a delay in responding.

In order to provide you with the information that you have requested would require the searching of archived records and datasets from multiple sources and organisations which are stored in a variety of formats and locations. The volume of data generated to create the dataset of c.2500 disused coal tips presents a major resource challenge to review and extract in order to meet your request. These data and records were generated on a daily basis over multiple years in an effort to consolidate, unify, and standardise how disused coal tips are mapped, recorded and categorised.

In addition, the Mining Remediation Authority (MRA), who undertook the work to identify the majority of the tips on our behalf, would need to undertake a similar exercise on our information which they hold. We have been advised by the MRA that approximately 5000 files could be captured. This would take 5 working days to just provide a relevant set of documents, excluding any preparatory works. From this the cost of complying with this part of your request would be at least £1600.

Exceptions under the EIRs are subject to the public interest tests.

We recognise there is a very strong public interest in knowing the locations of disused coal tips and how those locations were identified. To that extent we have published a map of all known sites and have indicated the main sources that enabled these sites to be identified. We are also committed to updating this information on a 6-monthly basis, to ensure that the general public have access to the most up to date information.

We do not believe that it is in the interests of the general public for resources to be diverted to locate and extract the information used to inform the locations of each known disused coal tip. Disclosure of this information is unlikely to allow for any greater understanding of the location of the sites or how they were identified. Complying with this part of the request would require a significant diversion of resources away from the ongoing work to address the safety concerns of local communities.

Consequently, I have decided not to provide you with the information you have requested.

You may wish to refine your request by narrowing its scope by being more specific about what information you particularly wish to obtain, including any dates or period of time relevant to the information required. If you do refine your request in this way, this will be treated as a new request.

Next steps

If you are dissatisfied with the Welsh Government's handling of your request, you can ask for an internal review within 40 working days of the date of this response. Requests for an internal review should be addressed to the Welsh Government's Freedom of Information Officer at:

Information Rights Unit,
Welsh Government,
Cathays Park,
Cardiff,
CF10 3NQ

or Email: Freedom.ofinformation@gov.wales

Please remember to quote the ATISN reference number above.

You also have the right to complain to the Information Commissioner. The Information Commissioner can be contacted at:

Information Commissioner's Office,
Wycliffe House,
Water Lane,
Wilmslow,
Cheshire,
SK9 5AF.

However, please note that the Commissioner will not normally investigate a complaint until it has been through our own internal review process.

Yours sincerely
