Subject: Fwd: Buckland Hall, Bwlch

Dear [Regulation 13 Personal Data],

I have been given your name by garden historian [Regulation 13 Personal Data] (cc'd). She is the owner of [Regulation 13 Personal Data] and has recently restored [Regulation 13 Personal Data]. She and I have recently been appointed to work at [Regulation 13 Personal Data]. Buckland Hall and its Registered Park and Garden was bought last month by our client with the intention to restore it as a family home and to restore the park, garden and wider landscape. I am Director of Landscape Agency, a practice of landscape architects that specialises in the restoration and repair of historic landscapes.

We have had an initial meeting with officers from Brecon Beacons National Park Authority and we have been in receipt of a Pre Application letter setting out some of the requirements that would be expected in a planning application to restore the main house, some of the outbuildings and the park and garden.

One of the main requirements in terms of the Registered Park and Garden is the suggested preparation of a Landscape Management Plan. We have prepared a draft brief for this plan (attached) and I wonder whether you would like to meet us at Buckland to discuss the brief and the opportunities that exist for the restoration of this site?

This is very early days in this project and we would welcome a discussion with you within the next few weeks.

As a start, I wonder whether you would be available to meet at Buckland during the the w/c March 9th or March 16th?

I look forward to hearing from you,

Yours sincerely,

[Regulation 13 Personal Data]

Director
