**Application for funding to support Emergency Work through  
Small Scale Flood Risk Management grant**

<b>Name of scheme</b>	Bro Ddewi
<b>Local Authority name</b>	Wrexham County Borough Council
<b>Local Authority contact details (name, address, phone number and email address)</b>	<p>██████████</p> <p>WCBC Abbey Road Depot, Abbey Road, Wrexham, LL13 9PW. ██████████</p> <p>████████████████████</p>
<b>Scheme location and Grid Reference</b>	<p>Bro Ddewi</p> <p>E22307, N37116</p>
<b>Total Cost of Works:</b>	£15,000
<b>Dates:</b>	<p>Programmed construction start date: TBC</p> <p>Programmed completion date: To be completed before the end of 2025</p>

<p><b>Assessment of scheme benefits</b></p> <p>Based on best available information please provide estimates of:</p> <ul style="list-style-type: none"> <li>• the number of properties which will benefit in comparison with not doing the work</li> <li>• the impact of delaying the works</li> </ul>	<ul style="list-style-type: none"> <li>• Residential: Bro Ddewi consists of circa 30 properties are at risk of flooding if work does not take place</li> <li>• Businesses: None</li> <li>• Other: N/A</li> </ul>
<p><b>Wider benefits/Wellbeing Goals</b></p> <p>Please include:</p> <ul style="list-style-type: none"> <li>• any wider additional benefits</li> <li>• how the proposed works will contribute to the well being goals</li> </ul> <p><a href="#">Link to Well-being of Future Generations Bill</a></p>	<p>The current storm damage has caused anxiety amongst residents. Failure to undertake this work could result in further distress.</p>

**Problem/Reasons for work including details of:**

- Source of flooding – surface water, ordinary watercourse, other.
  - History/frequency of flooding – when flooding occurred, what was the cause/number of properties affected on each occasion.
  - How does this fit in with the Communities at Risk Register
  - Condition of current flood defence asset (if appropriate)
  - Other details
  - This section must be supported with flood risk maps, photographs, annotated maps showing flow paths and links to Section 19 reports where available.
-

New head wall and trash screen due to damage from Storm Bert.

### **Options**

- Is this flood risk problem an isolated problem or does it form part of a wider catchment flood risk issue?
- Have you considered other flood risk management options before deciding that the proposed works is the most appropriate?
- How does the proposed works link to the Local Authorities Local Flood Risk Management Strategy and/or Flood Risk Management Plans

No changes available to this existing culvert. Work required to repair in order to prevent property flooding.

### **Description of proposed works**

- Please provide details/drawing of the proposed construction method and any changes made (such as alterations to intake structures, re-grading of watercourses or increases in culvert capacity).
- How will these works improve flood risk at this location?

This work will reduce risk of the culvert overflowing which will cause a flow of water sufficient to flood residential properties.

---

**Consultation**

- What consultation do you intend to do prior to commencing work and are any issues envisaged

**Land owner**

**Environmental Impacts:**

- Are there any environmental impact issues associated with the works?

None

**Consents:**

- What statutory consents/permissions are needed?
  - Are all statutory processes to implement the work in place?
-

N/A

**Value for money:**

- How will Value for Money be addressed?

Repairing now will be a significantly more cost beneficial than the alternative reactive work required to respond to property flooding and potential insurance claims against the Council.

**Risks:**

- What are the risks that work may not be complete by the end of the financial year (please detail the risk and categorise low to high)

Low Risk

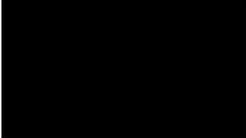

**Any other relevant information:**

---

- 
- Please include and other information you feel would be relevant to support your application

<b>Name of scheme</b>	B4500 - Towards Llanarmon (NOT COMPLETED)
<b>Local Authority name</b>	Wrexham County Borough Council
<b>Local Authority contact details (name, address, phone number and email address)</b>	<p>██████████</p> <p>WCBC Abbey Road Depot, Abbey Road, Wrexham, LL13 9PW. ██████████</p> <p>██████████</p>
<b>Scheme location and Grid Reference</b>	B4500 - Towards Llanarmon E16118, N33451
<b>Total Cost of Works:</b>	£70,000
<b>Dates:</b>	<p>Programmed construction start date: TBC</p> <p>Programmed completion date: To be completed before the end of 2025</p>

<p><b>Assessment of scheme benefits</b></p> <p>Based on best available information please provide estimates of:</p> <ul style="list-style-type: none"> <li>• the number of properties which will benefit in comparison with not doing the work</li> <li>• the impact of delaying the works</li> </ul>	<ul style="list-style-type: none"> <li>• Residential: 3 properties which includes a foster home could be isolated as a result of further failure to the culvert and retaining wall.</li> <li>• Businesses: None</li> <li>• Other: N/A</li> </ul>
<p><b>Wider benefits/Wellbeing Goals</b></p> <p>Please include:</p> <ul style="list-style-type: none"> <li>• any wider additional benefits</li> <li>• how the proposed works will contribute to the well being goals</li> </ul> <p><a href="#">Link to Well-being of Future Generations Bill</a></p>	<p>The current failure is causing anxiety amongst residents some of whom could be classed as vulnerable.</p>

**Problem/Reasons for work including details of:**

- Source of flooding – surface water, ordinary watercourse, other.
  - History/frequency of flooding – when flooding occurred, what was the cause/number of properties affected on each occasion.
  - How does this fit in with the Communities at Risk Register
  - Condition of current flood defence asset (if appropriate)
  - Other details
  - This section must be supported with flood risk maps, photographs, annotated maps showing flow paths and links to Section 19 reports where available.
-

Storm damage to culvert and retaining wall - Hafod Adam's Road

### **Options**

- Is this flood risk problem an isolated problem or does it form part of a wider catchment flood risk issue?
- Have you considered other flood risk management options before deciding that the proposed works is the most appropriate?
- How does the proposed works link to the Local Authorities Local Flood Risk Management Strategy and/or Flood Risk Management Plans

Total failure of culvert and retaining wall could result in full collapse of the road and infrastructure.

### **Description of proposed works**

- Please provide details/drawing of the proposed construction method and any changes made (such as alterations to intake structures, re-grading of watercourses or increases in culvert capacity).
- How will these works improve flood risk at this location?

If this road collapses it could cause debris to be deposited within the river which could impede flow and cause further flooding issues.

---

**Consultation**

- What consultation do you intend to do prior to commencing work and are any issues envisaged

**Liaison with residents when work is scheduled as the repairs will result in some disruption.**

**Consult with the LLFA**

**Environmental Impacts:**

- Are there any environmental impact issues associated with the works?

N/A

**Consents:**

- What statutory consents/permissions are needed?
- Are all statutory processes to implement the work in place?

N/A

**Value for money:**

- How will Value for Money be addressed?

Repairing now will be a significantly more cost beneficial than the alternative repair required in future should there be a complete failure.

**Risks:**

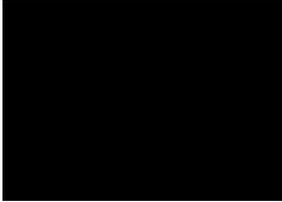

- What are the risks that work may not be complete by the end of the financial year (please detail the risk and categorise low to high)

Low Risk

**Any other relevant information:**

- Please include and other information you feel would be relevant to support your application

<b>Total Cost of Works:</b>	£30,000
<b>Dates:</b>	<p>Programmed construction start date: TBC</p> <p>Programmed completion date: To be completed before the end of 2025</p>

<p><b>Assessment of scheme benefits</b></p> <p>Based on best available information please provide estimates of:</p> <ul style="list-style-type: none"> <li>• the number of properties which will benefit in comparison with not doing the work</li> <li>• the impact of delaying the works</li> </ul>	<ul style="list-style-type: none"> <li>• Residential: Property flooding occurred during storm Bert</li> <li>• Businesses: Business flooding occurred during storm Bert (agricultural land)</li> <li>• Other</li> </ul>
<p><b>Wider benefits/Wellbeing Goals</b></p> <p>Please include:</p> <ul style="list-style-type: none"> <li>• any wider additional benefits</li> <li>• how the proposed works will contribute to the well being goals</li> </ul> <p><a href="#">Link to Well-being of Future Generations Bill</a></p>	<p>The recent flooding has caused anxiety amongst residents and land owners, local community and businesses.</p>

**Problem/Reasons for work including details of:**

- Source of flooding – surface water, ordinary watercourse, other.
  - History/frequency of flooding – when flooding occurred, what was the cause/number of properties affected on each occasion.
  - How does this fit in with the Communities at Risk Register
  - Condition of current flood defence asset (if appropriate)
  - Other details
  - This section must be supported with flood risk maps, photographs, annotated maps showing flow paths and links to Section 19 reports where available.
-

Structural failure to road and drainage following storm Bert

**Options**

- Is this flood risk problem an isolated problem or does it form part of a wider catchment flood risk issue?
- Have you considered other flood risk management options before deciding that the proposed works is the most appropriate?
- How does the proposed works link to the Local Authorities Local Flood Risk Management Strategy and/or Flood Risk Management Plans

No alternative options available.

**Description of proposed works**

- Please provide details/drawing of the proposed construction method and any changes made (such as alterations to intake structures, re-grading of watercourses or increases in culvert capacity).
- How will these works improve flood risk at this location?

This will resolve the above issues and prevent further property and farm land flooding.

---

**Consultation**

- What consultation do you intend to do prior to commencing work and are any issues envisaged

**Liaise with residents and businesses when work is scheduled.**

**Environmental Impacts:**

- Are there any environmental impact issues associated with the works?

None

**Consents:**

- What statutory consents/permissions are needed?
  - Are all statutory processes to implement the work in place?
-

None

**Value for money:**

- How will Value for Money be addressed?

Repairing now will be a significantly more cost beneficial than the alternative repair required in future should there be a complete failure and potential insurance claims.

**Risks:**

- What are the risks that work may not be complete by the end of the financial year (please detail the risk and categorise low to high)

Low Risk

<b>Scheme location and Grid Reference</b>	Dyffryn Road - Pont Herber  E28744, N37517
<b>Total Cost of Works:</b>	£20,000
<b>Dates:</b>	<p>Programmed construction start date: TBC</p> <p>Programmed completion date: To be completed before the end of 2025</p>

<p><b>Assessment of scheme benefits</b></p> <p>Based on best available information please provide estimates of:</p> <ul style="list-style-type: none"> <li>• the number of properties which will benefit in comparison with not doing the work</li> <li>• the impact of delaying the works</li> </ul>	<ul style="list-style-type: none"> <li>• Residential: Numerous properties are served by this road and there is risk of isolation. The road is an important link between communities.</li> <li>• Businesses: As above</li> <li>• Other</li> </ul>
<p><b>Wider benefits/Wellbeing Goals</b></p> <p>Please include:</p> <ul style="list-style-type: none"> <li>• any wider additional benefits</li> <li>• how the proposed works will contribute to the well being goals</li> </ul> <p><a href="#">Link to Well-being of Future Generations Bill</a></p>	<p>The current failure is causing anxiety amongst residents.</p>

**Problem/Reasons for work including details of:**

- Source of flooding – surface water, ordinary watercourse, other.
  - History/frequency of flooding – when flooding occurred, what was the cause/number of properties affected on each occasion.
  - How does this fit in with the Communities at Risk Register
  - Condition of current flood defence asset (if appropriate)
  - Other details
  - This section must be supported with flood risk maps, photographs, annotated maps showing flow paths and links to Section 19 reports where available.
-

Storm damage to carriage way following Storm Bert requiring urgent repair.

### **Options**

- Is this flood risk problem an isolated problem or does it form part of a wider catchment flood risk issue?
- Have you considered other flood risk management options before deciding that the proposed works is the most appropriate?
- How does the proposed works link to the Local Authorities Local Flood Risk Management Strategy and/or Flood Risk Management Plans

Road requires resurfacing with no alternative option.

### **Description of proposed works**

- Please provide details/drawing of the proposed construction method and any changes made (such as alterations to intake structures, re-grading of watercourses or increases in culvert capacity).
- How will these works improve flood risk at this location?

The road in itself is not a flood risk or does it contribute to the risk of flooding however further storms could see this road becoming impassable.
