

26 February 2026

Dear

**Request for Information - ATISN 26673**

I refer to your letter of 16 February seeking guidance on how you could refine your information request. I apologise for the delay in responding.

Whilst we know how our information is held, we do not know what specific information it is you want access to because your original request was so wide-ranging. It is therefore very difficult for us to provide more than basic advice on how to reframe your request in order to fall within the appropriate limit. The issue of simply restricting the time period is unlikely to bring the request within the appropriate cost limit.

As indicated in our previous response, we suggest you consider what it is you want to understand and what question(s) you require answers to, thereby clarifying the core information you require.

You may also find it useful to view the Cafcass Cymru website [Cafcass Cymru | GOV.WALES](#). The website contains information about the service Cafcass Cymru provides and has links to publications such as the strategic plan and annual reports. You may find this content answers some of the questions you may have.

Yours sincerely
