Hi all,

Thank you for your email. My apologies again for not getting in touch sooner, we have been non-stop with the AoLE development.

Could I suggest a meeting with us all on the week commencing the 30<sup>th</sup> July? I'm pretty flexible that week. We're just bringing together the work done from the AoLE at our working group last week and once that's done I'm happy to send this to you in confidence as context for discussion when we meet. If you could let me know the best time and date for you all and I'm happy to host you here in Cathays Park or wherever suits best.

Many thanks

**Importance:** High

Hi

We spoke on 21 June about getting a meeting in the diary about this. I was expecting an email by the end of that week, but didn't receive anything. Could you let us know if we will be able to get together before the summer?

Thanks very much,

—

Hi

Great to meet you last week – we've provided some feedback on the draft Health and Wellbeing statements as requested (attached). I hope this is useful, please share with colleagues and schools, and just let us know if you need any further information at this stage. You'll see that we are very positive about the use of big ideas to guide teaching but we are concerned that there is too little focus on learning about how to protect and improve *other people's health* in the current statements, which would be a missed opportunity for improving both education and health in Wales.

As discussed, we'd be happy to help facilitate a session with your pioneer schools group about life saving skills to explore how we can support teaching and learning in this area. For example, this might involve us working with the group to present our resources which are widely used by schools in Wales to get feedback on how we can adapt and integrate these resources with the new health and wellbeing curriculum. Just let us know where / when it would be useful to do this from your perspective.

All the best,

---
