Many Thanks.

Please find attached the draft Grant Offer Letter. Please read through it and let me know if you have any queries, particularly regarding section 5a. Could you also send the green highlight information (Pages 19 and 20) in an email when convenient.

I've noted that the costs provided in Schedule 1 are now lower than the original grant amount requested. Is this a result of your procurement process? If so, can I update the amount in Clause 1a to reflect this revised figure—£829,814.57 in the final version?

Good morning [REDACTED]

Sorry to chase you, do you have an indication as to when I can draw down some of the funds please? The battery supplier (VEST energy) is getting concerned over the delivery time for the battery as they were looking for the 50% deposit to be paid on 1st October.

I also would like to draw some funding for the solar panels as the installation is well under way and the guys are looking for their next stage payment, which I will also struggle to fully fund at this time without the grant support.

Call me if you need any additional information.

Kind Regards

I'm hoping to share the Welsh Government–agreed form document by the end of the week.

I'll incorporate Schedules 1 and 3 into the document and will update Schedule 1 to include the kW capacity for the various technologies.

Best regards,
