Ydych chi wedi gweld cacynen felyngoes? Riportiwch hi.

Pam ei riportio?

- Mae'n lladd gwenyn mêl a pheillwyr
- Gall ledaenu'n gyflym os nad yw'n cael ei rheoli

Lle gallech ei gweld:

- Blodau, eiddew a ffrwythau wedi cwmpo
- Cychod gwenyn

Peidiwch â mynd at nythod – gallan nhw bigo

Tynnwch lun a'i riportio NAWR

Sganiwch y cod QR neu ewch i llyw.cymru/y-gacynen-felyngoes

Have you seen a yellow-legged hornet? Report it.

Why report it?

- Preys on honey bees and pollinators
- Can spread quickly if not controlled

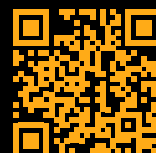

Where you might see it:

- Flowers, ivy and fallen fruit
- Bee hives

Do not approach nests – they can sting

Take a photo and report it NOW

Scan the QR code or visit gov.wales/yellow-legged-hornet

Mae cacwn melyngoes yn aml yn cael eu drysu â chacwn Ewropeaidd, gwenyn meirch neu gacwn dynwaredol.

Yellow-legged hornets are often confused with European hornets, wasps or hornet mimics.

Cacwn melyngoes
Yellow-legged

Cacwn Ewropeaidd
European hornet

Gwenyn meirch canolwedd
Median wasp

Cacwn dynwaredol
Hornet mimic

Gwenyn meirch y coed
Woodwasp
