Morning,

See below current draft WG statement for press enquiries

Cabinet Minister for Local Government, Housing and Planning, Siân Gwenllïan said: "This is a concerning incident and our thoughts are with the residents and businesses affected by the flooding in Gwaelod-y-Garth, Cardiff.

"We continue to monitor the situation and support our partners as part of a multi-agency response, which is now transitioning to recovery.

"Relevant authorities will now be investigating the incident to understand exactly what happened so it would not be appropriate for us to comment further at this stage."

Ta,

Morning [REDACTED]

Yes, I can have a go at drafting something. Grateful if you could provide the info you have suggested below.

Cheers

Subject: Written Statement

Importance: High

Hi [REDACTED]

We have been asked by [REDACTED] to prepare a draft Written Statement regarding the Gwaelod incident. [REDACTED] is on a call right now, but would you be able to start drafting?

[REDACTED] and I can also provide lines regarding flood investigations and potentially some about the (very limited) financial support which might be available to householders
