- (a) Budget requirement is total local authority expenditure excluding that funded by income from sales, fees and charges, all specific grants and any transactions to and from local authority reserves. It is the amount of expenditure which is funded by council tax and general support from central government, that is revenue support grant, police grant, redistributed non-domestic rates and any transitional grant relief scheme for council tax.
- (b) The police authority elements of council tax are shown separately. They are, however, collected by the unitary authorities on behalf of the police authorities.
- (c) Community councils can levy additional council tax on the residents of the community which is collected on their behalf by the unitary authorities. The figures given represent the aggregate over each authority of the amounts precepted by the constituent community councils.
- (d) Discretionary non-domestic rate relief is outside the definition of budget requirement in Wales and is financed by levying additional council tax.

(a) Service expenditure is shown excluding that financed by sales, fees and charges, but including that financed by specific and special government grants.

(b) Includes housing benefit, and private sector housing costs such as provision for the homeless. Excludes council owned housing.

(c) Expenditure on council tax benefit expenditure funded by specific grant from the Department for Work and Pensions is excluded. This amount is part of the financing of the council tax requirement, and would be double counted within gross revenue expenditure if it was also recorded within the line for council tax benefit expenditure. As such, this line records only that council tax benefit expenditure funded directly by the local authorities.

(d) Includes cemeteries and crematoria, community safety, consumer protection, environmental health, food safety. Waste collection and disposal, central services to the public such as birth registration and elections.

(e) Includes central administrative costs of corporate management, democratic representation and certain costs, such as those relating to back-year or additional pension contributions which should not be allocated to individual services. The figure also includes capital expenditure charged to the revenue account and is net of any interest expected to accrue. The figure includes agricultural services, coastal and flood defence, community councils and licensing.

(f) Expenditure on fire services is financed by the county and county borough councils by means of levies to the Fire authorities. Similarly 25 per cent of National Parks authority expenditure is financed by the county and county borough councils by means of levies to the National Parks authorities, the remainder being financed by specific grants.
