

## Regional economic & labour market profile – Mid Wales, April 2018

26 Apr 2018  
SB 27/2018

The latest headline labour market statistics for Mid Wales are generally more positive than for Wales overall.

Compared to Wales; Mid Wales has a higher employment rate and lower unemployment and economic inactivity rates. GVA per head and average earnings are both lower in Mid Wales but GDHI per head is higher.

### About this bulletin

This quarterly statistical bulletin summarises information on the economy and labour market for the Mid Wales economic region along with comparisons to Wales and the UK.

It is one in a series of four which cover the four economic regions of Wales: North Wales, Mid Wales, South West Wales and South East Wales.

Mid Wales consists of the following two local authorities: Powys and Ceredigion.

### Summary table: Latest data for Mid Wales

	Mid Wales				Wales	
	Level (000s)	Change on year	Rate	Change on year <sup>(7)</sup>	Rate	Change on year <sup>(7)</sup>
Employed <sup>(1)</sup>	97.6	0.4	74.3%	1.4	72.4%	1.2
ILO unemployed <sup>(2)</sup>	3.6	0.9	3.6%	0.9	4.8%	0.2
Economically Inactive <sup>(3)</sup>	17.7	-1.2	16.7%	-1.1	19.8%	-1.2

## Overall summary

Mid Wales had total Gross Value Added of £3.5 billion in 2016 which translates as £17,137 per head. This compares to £59.6 billion (£19,140 per head) for Wales. This difference is mostly down to job structure, with Powys having a lower GVA per job than Wales, but also net commuting out from the region and a higher proportion of elderly residents; these are partly offset by higher activity rates.

The headline economic statistics of Gross Disposable Household Income are only available for Powys, not for the whole of Mid Wales. Annual Gross Disposable Household Income per head in Powys was £17,321 in 2015, lower than the UK average (£19,106) and higher than the Wales average (£16,341). Average full-time weekly earnings in Mid Wales were £467.00 in 2017, lower than the Wales average (£498.40) and the UK average (£550.40).

Over the latest year, the employment rate and the ILO unemployment rate both increased in Mid Wales, whilst the economic inactivity (excluding students) rate fell. The average for Mid Wales generally hides differences between Ceredigion and Powys, partly because Ceredigion is affected by the large number of economically inactive students. Looking over the longer term, Mid Wales has seen a bigger improvement in unemployment compared to Wales since 2001, but has not improved by as much in employment or economic inactivity.

The [key quality information](#) section includes a link to a data sources guide which gives information on the methodology, quality and metadata for the sources used in this output.

**Please note the 'next update' dates given throughout this bulletin relate to when new data for the dataset are next being released. The StatsWales datasets will be updated at that time and can be accessed via the links given under the tables in this bulletin.**

(1) Levels are for those aged 16 and over, rates are for those aged 16-64. Data relate to the year to December 2017 with comparisons over the latest year and 2001.

(2) Levels and rates are for those aged 16 and over. The rate is a proportion of the economically active. Data relate to the year to December 2017 with comparisons over the latest year and 2001.

(3) Levels and rates exclude students and are for those aged 16-64. Data relate to the year to December 2017 with comparisons over the latest year and 2001.

(4) Data relate to 2016 and are provisional. Comparisons are over the latest year and 1999.

(5) Data relate to 2015 and are provisional. Comparisons are over the latest year and 1999.

(6) Average (median) gross weekly earnings. Data relate to 2017 and are provisional. Comparisons are over the latest year. Comparisons to 1999 are not available.

(7) Percentage point change for employment, ILO unemployment and economic inactivity rates. Percentage change for GVA per head, GDHI per head and average earnings.

Mid Wales had the second highest employment rate, the second lowest unemployment rate and the lowest economic inactivity rate amongst the 4 Welsh Economic Regions. GVA per head was the lowest amongst the 4 regions, GDHI per head was the highest and average weekly earnings were the lowest.

Over the latest year, Mid Wales had the third largest increase in the employment rate and the highest increase in the unemployment rate. The economic inactivity rate had the third largest decrease. The region had the smallest increase in GVA per head, the third largest increase in GDHI per head and the second largest increase in earnings.

Looking over the longer term (change on 1999/2001), Mid Wales had the smallest increase in the employment rate and the third largest decrease in the unemployment rate. It had the smallest decrease in the economic inactivity rate. Mid Wales had the smallest increase in GVA per head and had the largest increase in GDHI per head.

## Latest quarterly data

### Employment – New data (next update June 2018)

**Table 1: Employment levels, year to December 2017 (a)**

	Year to Dec 2017	Compared to previous year			Compared to earliest available		
		Year to Dec 2016	Level Change	Percentage Change	2001	Level Change	Percentage Change
<b>Mid Wales</b>	<b>97.6</b>	<b>97.2</b>	<b>0.4</b>	<b>0.4</b> ↑	<b>91.2</b>	<b>6.4</b>	<b>7.0</b> ↑
Powys	64.8	64.0	0.8	1.2 ↑	59.2	5.6	9.5 ↑
Ceredigion	32.9	33.2	-0.3	-1.0 ↓	32.1	0.8	2.5 ↑

Source: Welsh Government analysis of Labour Force Survey (LFS)/Annual Population Survey (APS), ONS

(a) Employment levels for those aged 16 and over (levels in thousands).

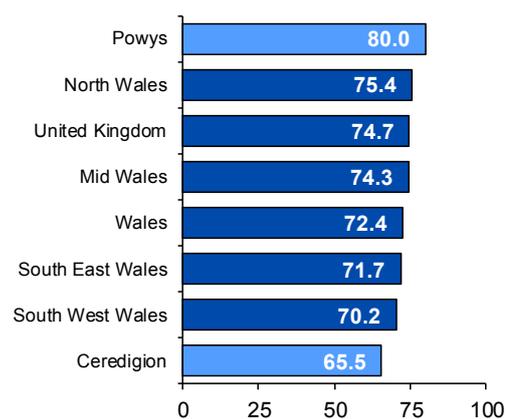

The employment level is the total number of people that are in employment and the employment rate is the percentage of the population that is in employment.

Table 1 shows the latest employment level figures and how these have changed over time. For the year ending December 2017, the number of people in employment in Mid Wales was 97,600, this is an increase of 400 people (0.4 per cent) compared to the same period the year before.

Chart 1 shows the latest employment rates for the economic regions and each authority within Mid Wales.

Within Mid Wales, both authorities had increases in the employment rate over the year. Since 2001, both authorities had increases, with Powys having the largest (up 5.0 percentage points).

**Chart 1: Employment rates, year to December 2017 (a)**

(a) Employment rates for those aged 16-64.

## Unemployment – New data (next update June 2018)

**Table 2: Unemployment levels, year to December 2017 (a)**

	Year to Dec 2017	Compared to previous year			Compared to earliest available		
		Year to Dec 2016	Level Change	Percentage Change	2001	Level Change	Percentage Change
<b>Mid Wales</b>	<b>3.6</b>	<b>2.7</b>	<b>0.9</b>	<b>34.4</b> ↑	<b>4.2</b>	<b>-0.6</b>	<b>-13.2</b> ↓

Ceredigion	2.0	1.0	1.0	109.0 ↑	2.0	0.0	0.4 ↑
<b>Wales</b>	<b>71.5</b>	<b>68.1</b>	<b>3.3</b>	<b>4.9</b> ↑	<b>71.0</b>	<b>0.5</b>	<b>0.7</b> ↑
United Kingdom	1,463.5	1,606.1	-142.6	-8.9 ↓	1,450.3	13.2	0.9 ↑

Source: Welsh Government analysis of Labour Force Survey (LFS)/Annual Population Survey (APS), ONS

(a) Unemployment levels for those aged 16 and over (levels in thousands).

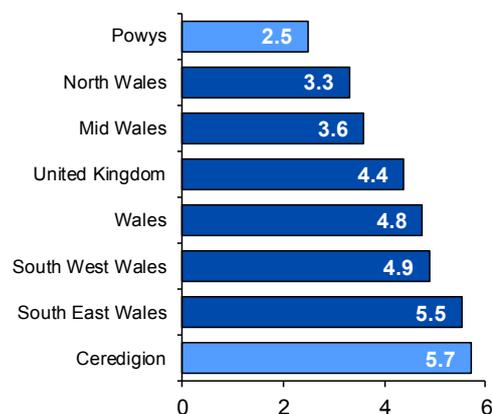

The unemployment level is the total number of people who are unemployed and the unemployment rate is the percentage of the economically active population who are unemployed (using the International Labour Organisation's definition of unemployment).

Table 2 shows the latest unemployment level figures and how these have changed over time. For the year ending December 2017, the number of people who were unemployed in Mid Wales was 3,600, this is an increase of 900 people (34.4 per cent) compared to the same period the year before.

Chart 2 shows the latest unemployment rates for the economic regions and each authority within Mid Wales.

Within Mid Wales, the unemployment rate in 1 of the 2 fell over the year. Since 2001, both authorities had falls, with Powys having the largest (down 1.1 percentage points).

**Chart 2: Unemployment rates, year to December 2017 (a)**

(a) Unemployment rates for those aged 16 and over.

## Economic inactivity – New data (next update June 2018)

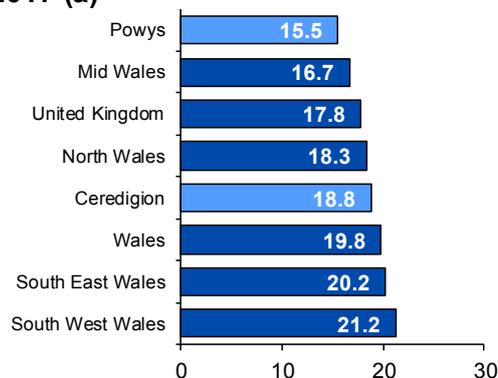

The economic inactivity rate is the percentage of the population who are neither in employment or ILO unemployed.

Chart 3 shows the latest economic inactivity rates (excluding students) for the economic regions and each authority within Mid Wales.

Within Mid Wales, both authorities had falls over the year (excluding students). Since 2001, both authorities had falls with Powys having the largest (down 4.6 percentage points).

Including students, the economic inactivity rate in Mid Wales was 22.8 per cent, down 2.0 percentage points over the year. This was lower than the rate for Wales (24.0 per cent) and higher than the rate for the UK (21.8 per cent).

**Chart 3: Economic inactivity rates (excl. students), year to December 2017 (a)**

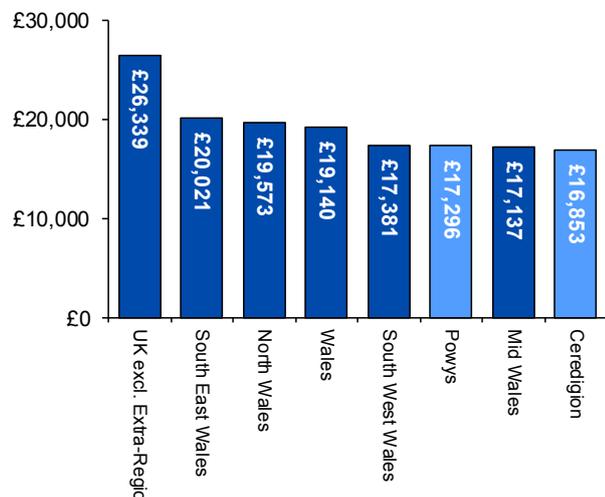

(a) Economically inactivity rates (excluding students) for those aged 16-64.

Please note the out of work benefit claimants dataset is no longer updated by the Department for Work and Pensions. See [key quality information](#) for more information.

## Latest annual data

### Gross value added (GVA) (next update Dec 2018)

Chart 4: GVA per head, 2016

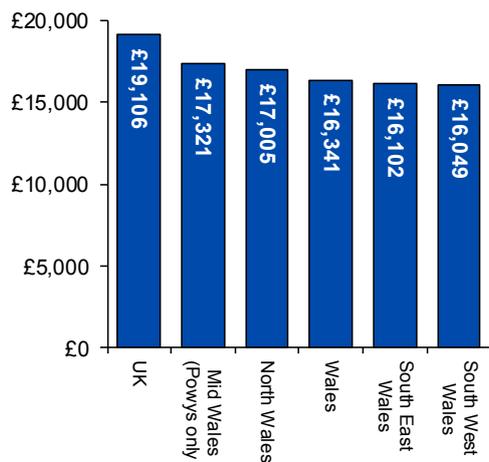

GVA is the value generated by any unit engaged in the production of goods and services.

Total GVA in Mid Wales in 2016 was £3.5 billion, up 1.4 per cent over the year and up 66.9 per cent since 1999. This compares to an increase of 4.0 per cent over the year and an increase of 80.9 per cent since 1999 for Wales.

Within Mid Wales, both authorities had increases in GVA per head over the year (both up by 1.9 per cent). Since 1999, both authorities had increases, with Ceredigion having the largest (up by 69.1 per cent).

**Gross disposable household income (GDHI)**  
*(next update May 2018)*

**Chart 5: Annual GDHI per head by NUTS3 level, 2015**

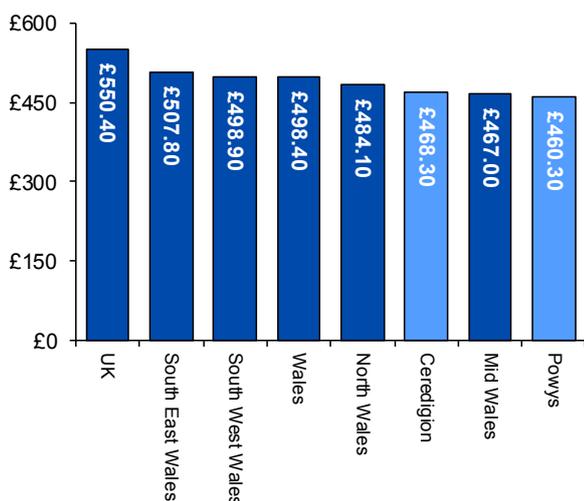

GDHI is an estimate of the amount of money that households have available for spending or saving.

Please note, these data are only available at NUTS3 level, therefore data for some economic regions are an approximation. In the chart above, Mid Wales only includes Powys, South West Wales includes Ceredigion and Bridgend and South East Wales excludes Bridgend.

**Average (median) full-time weekly earnings**  
*(next update Oct 2018)*

**Chart 6: Average full-time weekly earnings, 2017 (a)**

(a) Average (median) gross weekly earnings (including overtime) for full time adults whose pay was unaffected by absence.

Average weekly earnings in Mid Wales were up 1.5 per cent over the year compared to an increase of 1.0 per cent for Wales and an increase of 2.2 per cent for the UK.

Within Mid Wales, both authorities had increases over the year, with Ceredigion having the largest increase of 2.7 per cent.

## Workplace employment (next update Oct 2018)

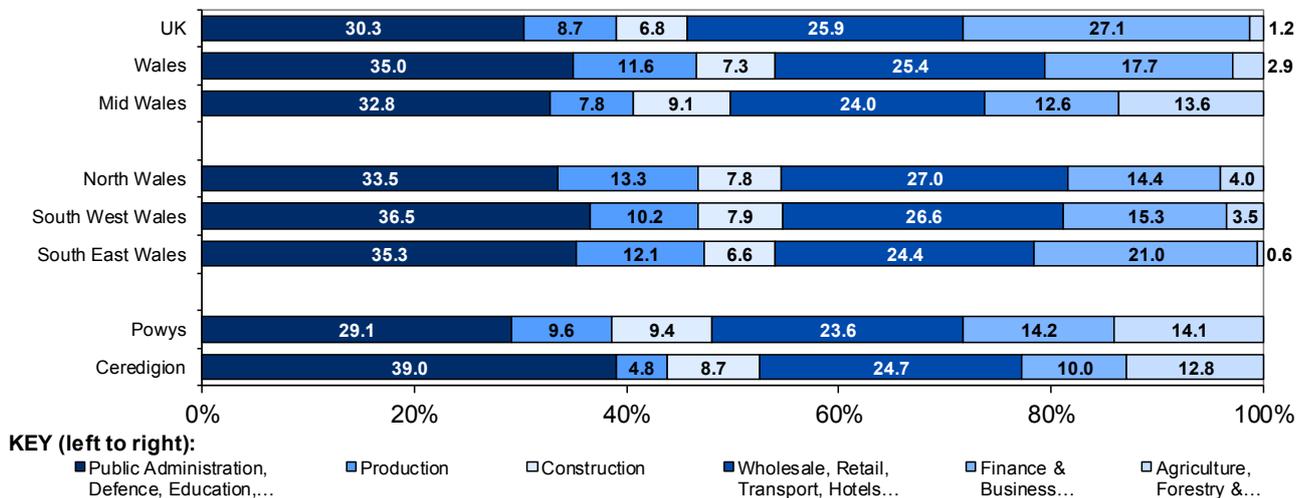

**Table 3: Total workplace employment, 2016 (a)**

	2016	Compared to previous year			Compared to earliest available		
		2015	Level Change	Percentage Change	2001	Level Change	Percentage Change
<b>Mid Wales</b>	<b>97.9</b>	<b>101.7</b>	<b>-3.9</b>	<b>-3.8</b> ↓	<b>92.4</b>	<b>5.5</b>	<b>5.9</b> ↑
Powys	60.9	64.2	-3.3	-5.2 ↓	56.0	4.9	8.8 ↑
Ceredigion	37.0	37.5	-0.5	-1.4 ↓	36.4	0.6	1.6 ↑
<b>Wales</b>	<b>1,404.3</b>	<b>1,403.4</b>	<b>0.9</b>	<b>0.1</b> ↑	<b>1,252.7</b>	<b>151.6</b>	<b>12.1</b> ↑
United Kingdom	32,412.6	32,145.2	267.4	0.8 ↑	28,580.0	3,832.6	13.4 ↑

Source: APS, Business Register & Employment Survey and Survey of Agriculture & Horticulture

(a) These data show workplace employment (or total jobs) in each area, including self-employment jobs. The United Kingdom (UK) data presented here should not be used for any purpose other than as a comparator for the Wales data.

**Chart 7: Percentage of workplace employment by industry, 2016**

## VAT/PAYE registered enterprises (next update Nov 2018)

These data exclude those businesses below the VAT threshold and not registered for PAYE.

**Table 4: Total stock of VAT/PAYE registered enterprises, 2016 (a)**

	2016	Compared to previous year			Compared to earliest available		
		2015	Level Change	Percentage Change	2002	Level Change	Percentage Change
<b>Mid Wales</b>	<b>8,680</b>	<b>8,670</b>	<b>10</b>	<b>0.1</b> ↑	<b>7,985</b>	<b>695</b>	<b>8.7</b> ↑
Powys	5,830	5,805	25	0.4 ↑	5,335	495	9.3 ↑
Ceredigion	2,850	2,865	-15	-0.5 ↓	2,650	200	7.5 ↑
<b>Wales</b>	<b>98,445</b>	<b>95,010</b>	<b>3,435</b>	<b>3.6</b> ↑	<b>81,175</b>	<b>17,270</b>	<b>21.3</b> ↑
United Kingdom	2,833,965	2,672,025	161,940	6.1 ↑	2,115,915	718,050	33.9 ↑

Source: Business Demography, ONS

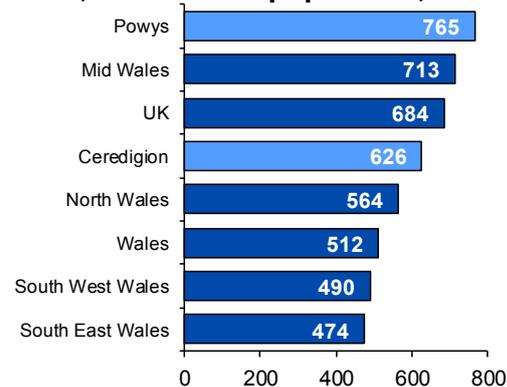

(a) Stock of VAT/PAYE registered enterprises in each year (numbers rounded to the nearest 5).

In Mid Wales, there were 695 VAT/PAYE registered enterprise births during 2016. This was the same number as in 2015.

There were 690 VAT/PAYE registered enterprise deaths in Mid Wales in 2016, which was an decrease from 725 enterprise births in 2015.

The difference in births and deaths may not equal the difference in stock, because businesses may be born and die in the same period and the stock is taken at a single point in time.

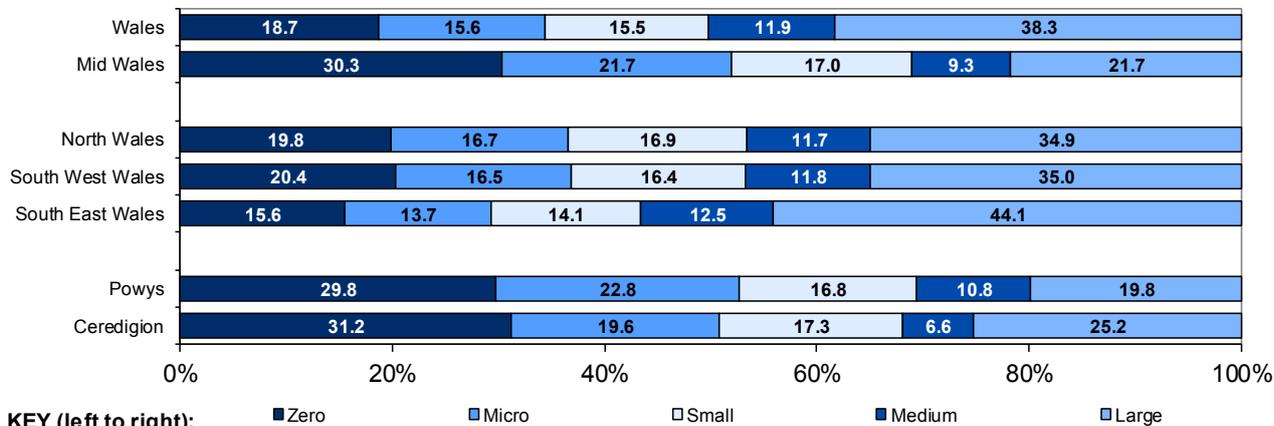

**Chart 8: VAT/PAYE registered enterprises per 10,000 resident population, 2016 (a)**

## Business structure (next update Nov 2018)

There were 29,480 enterprises active in Mid Wales in 2017, of which 95.6 per cent were in the zero or micro size band (0-9 employees), this was slightly larger than that for Wales (94.9 per cent).

**Chart 9: Percentage of employment by enterprise size-band, 2017 (a)**

(a) The size band is based upon the size of the UK enterprises and includes all enterprises that are active in Wales.

**Table 5: Foreign owned companies, 2017 (a)**

	Enterprises			Employees		
	Total	Foreign Owned	Percentage	Total	Foreign Owned	Percentage
<b>Mid Wales</b>	<b>29,480</b>	<b>95</b>	<b>0.3</b>	<b>87,865</b>	<b>4,415</b>	<b>5.0</b>
Powys	19,100	65	0.3	56,585	3,250	5.7
Ceredigion	10,510	55	0.5	31,285	1,165	3.7
<b>Wales</b>	<b>253,635</b>	<b>1,135</b>	<b>0.4</b>	<b>1,143,305</b>	<b>155,320</b>	<b>13.6</b>

Source: Size Analysis of Welsh Businesses

(a) Enterprises which are active in more than one local authority will be counted in each one, so the enterprises totals for the regions/Wales will not add up to the sum of the local authorities. The size band is based upon the size of the UK enterprises and includes all enterprises that are active in Wales (numbers rounded to the nearest 5).

## Key quality information

### Relevance

This bulletin is a compendium publication used to bring together the latest key statistics relating to the economy and labour market for each of the four economic regions in Wales, in the context of the Welsh/UK economy and labour market.

This bulletin, produced by the Welsh Government, provides a summary of the sub-Wales data contained within a range of statistical bulletins and presents those estimates alongside other headline estimates for the economy and labour market for Wales and the UK. These statistics are used by the Welsh Government to monitor the headline statistics for the sub-Wales regions as well as providing comparisons to the UK and Welsh economy. The bulletin includes statistics relevant to the [Programme for Government](#) and [Prosperity for All: economic action plan](#). This bulletin was produced in response to growing user demand for more local area data which was identified in our user consultation. Our [user consultation](#) provides more information on how our outputs are used.

The bulletin is the main vehicle for the publication of results at economic region level for the Welsh labour market from the Annual Population Survey (APS), as produced by the Office for National Statistics (ONS). It also provides Welsh data from Jobcentre plus on the numbers of Jobseeker Allowance claimants and numbers of benefit claimants from the Department of Work and Pensions (DWP).

In addition to these datasets, the bulletin brings together the further datasets, for which the Welsh Government produces separate publications, including average weekly earnings, business demography, workplace employment, business structure and regional accounts data. Further information about these additional datasets can be found in the [separate publications themselves](#).

The [Department for Work and Pensions \(DWP\)](#) are no longer publishing working age benefits claimants by client group. We will no longer publish the Benefits data on StatsWales. We are in the process of identifying a new appropriate source for this data.

### Accuracy

#### Guidance on the use of the bulletins

For further guidance on the use of this bulletin, including quality information and descriptions and comparisons of measures and sources, please refer to the [Regional Profile User Guide](#).

#### Data Sources and Quality

We have also published a [comprehensive data sources guide list](#) which provides a summary of all the main official data sources used by the Economic and Labour Market Statistics branch as well as useful links.

## **Definitions of regions**

The four regions used in this set of bulletins are defined as:

North Wales: Isle of Anglesey, Gwynedd, Conwy, Denbighshire, Flintshire and Wrexham.

Mid Wales: Powys and Ceredigion.

South West Wales: Pembrokeshire, Carmarthenshire, Swansea and Neath Port Talbot.

South East Wales: Bridgend, Rhondda Cynon Taf, Merthyr Tydfil, Caerphilly, Blaenau Gwent, Torfaen, Vale of Glamorgan, Monmouthshire, Newport and Cardiff.

These definitions are based on the Department for Economy, Skills and Natural Resources economic regions, however, these regions split Gwynedd between Mid Wales and North Wales, with Meirionnydd being in Mid Wales and the rest in North. Due to data availability we have used whole Local Authorities rather than splitting Gwynedd.

## **Revisions**

Where the data is not from the Welsh Government, we follow the revisions policy of the individual Government department. For data from our own outputs, we follow our [revisions policy](#).

## **Timeliness and punctuality**

This is a quarterly bulletin, usually published in January, April, July and October. It is based on the latest version of each of the datasets it includes (see dates given in each of the headings for the next update dates).

## **Accessibility and clarity**

Much of the data in this bulletin can be found on [StatsWales](#) which is a free-to-use service that allows visitors to view, manipulate, create and download tables from the most detailed official data on Wales. Links to specific data can be found under the relevant tables, above.

## **Comparability and coherence**

Comparable measures for other UK countries for the data published in this bulletin are published on [StatsWales](#) where available. Links to specific data can be found under the relevant tables, above.

## **National Statistics status**

The [United Kingdom Statistics Authority](#) has designated these statistics as National Statistics, in accordance with the Statistics and Registration Service Act 2007 and signifying compliance with the [Code of Practice for Statistics](#).

National Statistics status means that official statistics meet the highest standards of trustworthiness, quality and public value.

All official statistics should comply with all aspects of the Code of Practice for Statistics. They are awarded National Statistics status following an assessment by the UK Statistics Authority's regulatory arm. The Authority considers whether the statistics meet the highest standards of Code compliance, including the value they add to public decisions and debate.

It is Welsh Government's responsibility to maintain compliance with the standards expected of National Statistics. If we become concerned about whether these statistics are still meeting the appropriate standards, we will discuss any concerns with the Authority promptly. National Statistics status can be removed at any point when the highest standards are not maintained, and reinstated when standards are restored.

## **Well-being of Future Generations Act (WFG)**

The Well-being of Future Generations Act 2015 is about improving the social, economic, environmental and cultural well-being of Wales. The Act puts in place seven well-being goals for Wales. These are for a more equal, prosperous, resilient, healthier and globally responsible Wales, with cohesive communities and a vibrant culture and thriving Welsh language. Under section (10)(1) of the Act, the Welsh Ministers must (a) publish indicators ("national indicators") that must be applied for the purpose of measuring progress towards the achievement of the Well-being goals, and (b) lay a copy of the national indicators before the National Assembly. The 46 national indicators were laid in March 2016.

Information on the indicators, along with narratives for each of the well-being goals and associated technical information is available in the [Well-being of Wales report](#).

Further information on the [Well-being of Future Generations \(Wales\) Act 2015](#).

The statistics included in this release could also provide supporting narrative to the national indicators and be used by public services boards in relation to their local well-being assessments and local well-being plans.

## **Further details**

The document is available at:

<http://gov.wales/statistics-and-research/regional-economic-labour-market-profiles/?lang=en>

## **Next update**

We are considering alternative ways of disseminating the data in this publication but will ensure user needs are met.

## **We want your feedback**

We welcome any feedback on any aspect of these statistics which can be provided by email to [economic.stats@gov.wales](mailto:economic.stats@gov.wales)
