

Pupils educated other than at School, 2016/17

3 August 2017
SFR 86/2017

This annual Statistical First Release reports on the number of pupils receiving education outside of school funded by Welsh local authorities and the number of pupils receiving elective home education in Wales. The information relates to the number of pupils receiving these forms of education during a census week in January for the academic years 2011/12 to 2016/17. During the 2016/17 academic year the census week was 9th to 13th January 2017.

Chart 1: Rate of Educated Other Than At School (EOTAS) pupils whose main education is other than at school

↓ The rate of EOTAS pupils receiving their main education other than at school decreased in 2016/17 over the year to 3.0 per 1,000 pupils. However, the rate is higher than it was five years ago.

EOTAS pupils are pupils who receive education outside of school funded by Welsh local authorities.

- **1,972** the number of EOTAS pupils.
- **1,402** the number of EOTAS pupils receiving their main education other than at school ([Table 1](#)).
- **3.0** out of 1,000 pupils in Wales received their main education other than at school ([Table 2](#)).

Pupil referral units were the most popular form of EOTAS education ([Table 7](#)).

7 out of 10 pupils whose main education is other than at school were **boys** ([Table 3](#)).

About this release

This release covers data on individual pupils receiving education outside of school, including Pupil Referral Units, which includes data by age, gender and the type of provision.

Data are shown for Wales and at local authority/consortium level.

Introduction

[Chart 1](#) shows how the rate of EOTAS pupils whose main education is other than at school has changed over the years.

[Table 1](#) shows a breakdown of the number of EOTAS pupils in each local authority by enrolment status in PLASC for the 2016/17 academic year.

[Tables 2](#) and [3](#) show the number of EOTAS pupils whose main education is other than at school by local authority, gender and age for academic years 2011/12 to 2016/17 and show the rate per 1,000 pupils of these data, giving a more reliable measure of differences between groups of pupils.

[Tables 4](#) to [6](#) break down the number and percentage of pupils whose main education is other than at school by special educational need, free school meal entitlement and ethnic background.

[Table 7](#) shows the types of education being provided for pupils whose main education is other than at school. [Chart 2](#) ranks these data by the number of enrolments and [Chart 3](#) shows how the percentage of enrolments at different educational provisions has changed over the years.

[Tables 8](#) and [9](#) display the number of pupils who are registered at a single pupil referral unit or who are dual registered at a pupil referral unit by age, gender and local authority.

[Table 10](#) relates to pupils who are electively home educated and breaks down the figures by local authority. The pupils behind the elective home education data are not included in any other tables in this statistical release.

Pupil Level Annual School Census, Welsh Government

Key points

1,972 the number of EOTAS pupils.

1,402 the number of EOTAS pupils receiving their main education other than at school.

71.1% the percentage of EOTAS pupils receiving their main education other than at school.

- In 2016/17, 1,972 pupils were reported to be receiving education other than at school funded by their local authority during the census week (9th to 13th January 2017). In this statistical release such pupils will be referred to as 'EOTAS pupils'.
- Not all EOTAS pupils receive their education solely outside of the maintained school environment. In fact, many of them are still on roll at maintained schools. Of the 1,972 EOTAS pupils:

- 892 pupils were not on roll at a maintained school in the January 2017 Pupil-Level Annual School Census (PLASC), so they only received education ‘other than at school’;
 - 510 pupils had ‘subsidiary’ enrolment status in maintained schools in the January 2017 PLASC, meaning that their main education was ‘other than at school’; and;
 - 570 pupils had ‘main’ or ‘current’ enrolment status in maintained schools in the January 2017 PLASC, which means that their main education was in a maintained school.
- This breakdown can be seen in the following diagram. The circle on the left represents the EOTAS pupils who were on roll at a maintained school, while the circle on the right shows the EOTAS pupils whose main education was other than at school. The section where the circles overlap shows the number of EOTAS pupils whose main education was other than at school and had ‘subsidiary’ enrolment status in a maintained school.

- Since pupils with ‘main’ or ‘current’ enrolment status in the January 2017 PLASC are included in the Schools’ Census publication, the main focus of this statistical release will be on the EOTAS pupils whose main education is other than at school – the pupils represented by the circle on the right.

(a) Rate per 1,000 pupils. Full- and part-time pupils in maintained nursery, primary, secondary and special schools and pupils whose main education is other than at school as in the January School Census and EOTAS Pupil Census.

Key points

3.0 out of every 1,000 pupils received their main education other than at school.

The rate of pupils whose main education is other than at school decreased during 2016/17

Blaenau Gwent had the highest rate of pupils whose main education is other than at school.

- In 2016/17, 3.0 out of every 1,000 pupils in Wales received their main education other than at school. This value is lower than it was in 2015/16, but had increased over the five years previous to that point.
- The rate of EOTAS pupils whose main education is other than at school in 2016/17 is 0.8 percentage points higher than it was in 2011/12, but 0.2 percentage points lower than it was the previous year in 2015/16.
- **Blaenau Gwent** had the highest rate of EOTAS pupils whose main education is other than at school in **2016/17** (6.1 per 1,000 pupils).

Sources: EOTAS Pupil Census, Welsh Government School Census, Welsh Government

(a) Rate per 1,000 pupils. Full- and part-time pupils in maintained nursery, primary, secondary and special schools and pupils whose main education is other than at school as in the January School Census and EOTAS Pupil Census.

(b) Age as on 31 August at the start of the academic year.

Key points

Pupils whose main education is other than at school:

- 7 out of 10 pupils were boys.
- Pupils aged 15 had the highest rate of EOTAS pupils (of those pupils aged 11-15)

- Since 2011/12 there have been more boys whose main education is other than at school than girls and this continues to be the case in 2016/17. Around 7 out of 10 pupils whose main education is other than at school were boys.
- The rate of boys whose main education is other than school has decreased from 2015/16, though it has been above 4 per cent since 2014/15. The rate of girls has risen and fallen between 2011/12 and 2016/17, but in general has been increasing.
- 18 year olds had the highest rate of pupils receiving their main education other than at school overall.
- Of those pupils aged 11-15, the age group with the highest rate of pupils receiving their main education other than at school was 15-year-olds. A little over 4 out of 10 EOTAS pupils whose main education is other than at school were aged 15. The rate of pupils aged 11-15 whose main education is other than at school increases as the pupils' ages increase. This trend can be seen in the 'Rate' section in Table 3. In 2016/17, 1.6 out of every 1,000 pupils aged 11 were receiving their main education other than at school and as pupils' ages increase, this rate also increases, to 18.9 out of every 1,000 pupils at age 15.

Table 4: Pupils whose main education is other than at school, by special educational need (SEN) provision, 2011/12 - 2016/17 (a)

SEN provision	Number of pupils						Percentage of pupils (a)					
	2011/12	2012/13	2013/14	2014/15	2015/16	2016/17	2011/12	2012/13	2013/14	2014/15	2015/16	2016/17

Sources: EOTAS Pupil Census, Welsh Government

(a) Percentage of pupils whose main education is other than at school.

Pupils whose main education is other than at school:

- **88.5%** Per cent of pupils have special educational needs in 2016/17.
- The percentage of pupils with special educational needs increased in 2016/17.

- In 2016/17 the percentage of pupils whose main education is other than at school with special educational needs increased for the first time since 2011/12.
- School Action Plus has been the most common SEN provision for EOTAS pupils whose main education is other than at school since 2011/12.

Table 5: Pupils whose main education is other than at school, by free school meal (FSM) entitlement, 2011/12-2016/17 (a)

(a) Percentage of pupils whose main education is other than at school.

Key points

Of pupils whose main education is other than at school:

- Around 1 out of 3 pupils were entitled to free school meals.

- 33.0 per cent (just under 1 in 3) of pupils whose main education is other than at school were entitled to free school meals in 2016/17.
- The percentage of pupils whose main education is other than at school who were entitled to free school meals fell in 2016/17 for the first time in five years.

(a) Percentage of pupils whose main education is other than at school

Table 7: Pupils whose main education is other than at school, by educational provision, 2016/17

Since pupils may attend more than one educational provision in a week, some pupils may be counted against more than one provision. That is why the number of enrolments is higher than the number of pupils whose main education is other than at school (1,402 pupils) in Table 1.

<u>Educational provision</u>	<u>Number of enrolments</u>	<u>Percentage of enrolments</u>	<u>Average number of hours a pupil is scheduled to attend in a week</u>
Pupil referral unit	663	44.3	23.6
Further education college	108	7.2	23.8
Maintained school	58	3.9	10.5
Non-maintained special school	74	4.9	25.3
Individual tuition	226	15.1	11.6
Youth Gateway	1	0.1	.
Work-related education	12	0.8	7.5
Training provider	86	5.7	20.7
Voluntary organisation	1	0.1	21.0

"." data item is not applicable.

Key points

Pupils whose main education is other than at school:

- 44.3% Percentage of pupil enrolments were at pupil referral units.
- 15.1% Percentage of pupil enrolments were for individual tuition.
- 19 Number of pupils not receiving educational provision during the census week.

- In 2016/17 there were 663 enrolments at pupil referral units, which accounted for 44.3 per cent of all EOTAS educational enrolments. Looking at Chart 2, you can see that pupil referral units were used much more frequently to educate EOTAS pupils than other provisions.
- Individual tuition was the next most popular educational provision, accounting for 15.1 per cent of EOTAS educational enrolments.
- Although the EOTAS data collection refers to pupils educated other than at school, in some circumstances EOTAS pupils are placed into a maintained school as part of their provision. 58 pupils received EOTAS education in a maintained school.
- The average number of hours of education provided to pupils whose main education is outside of school was 20.9 hours during the census week. Pupils enrolled at non-maintained special schools received the most number of hours of provision during the census week, with an average of 25.3 hours provided per pupil.

Chart 2: Number of pupil enrolments, by educational provision, 2016/17

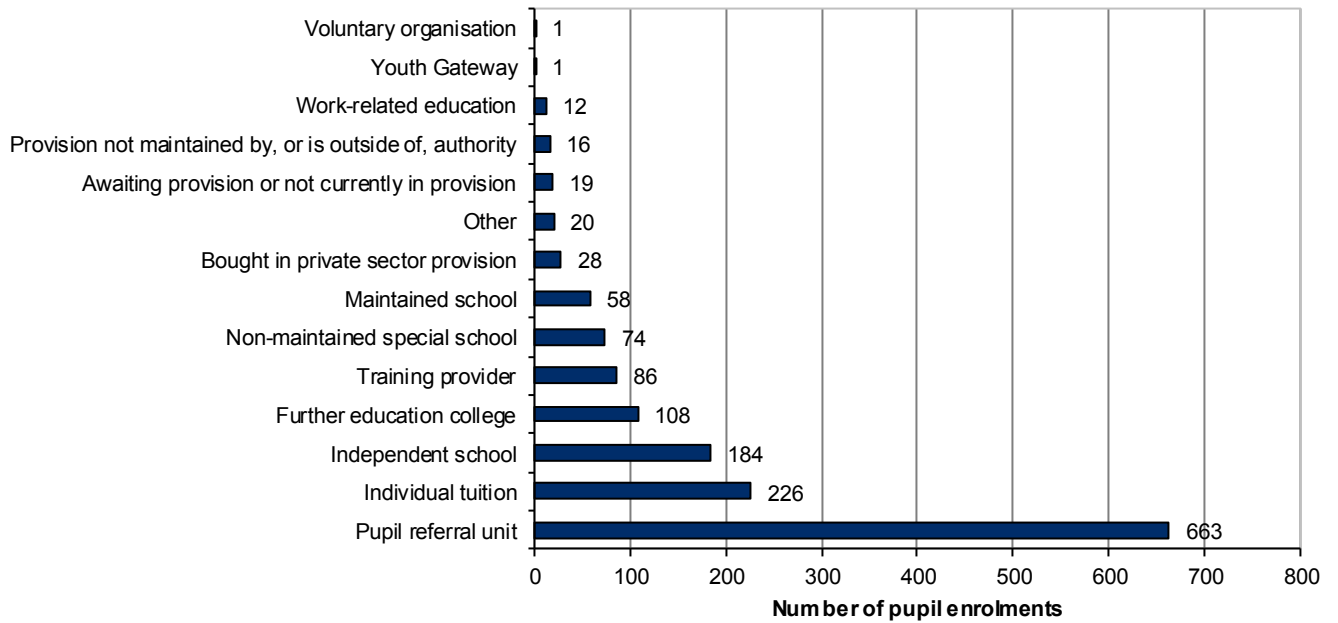

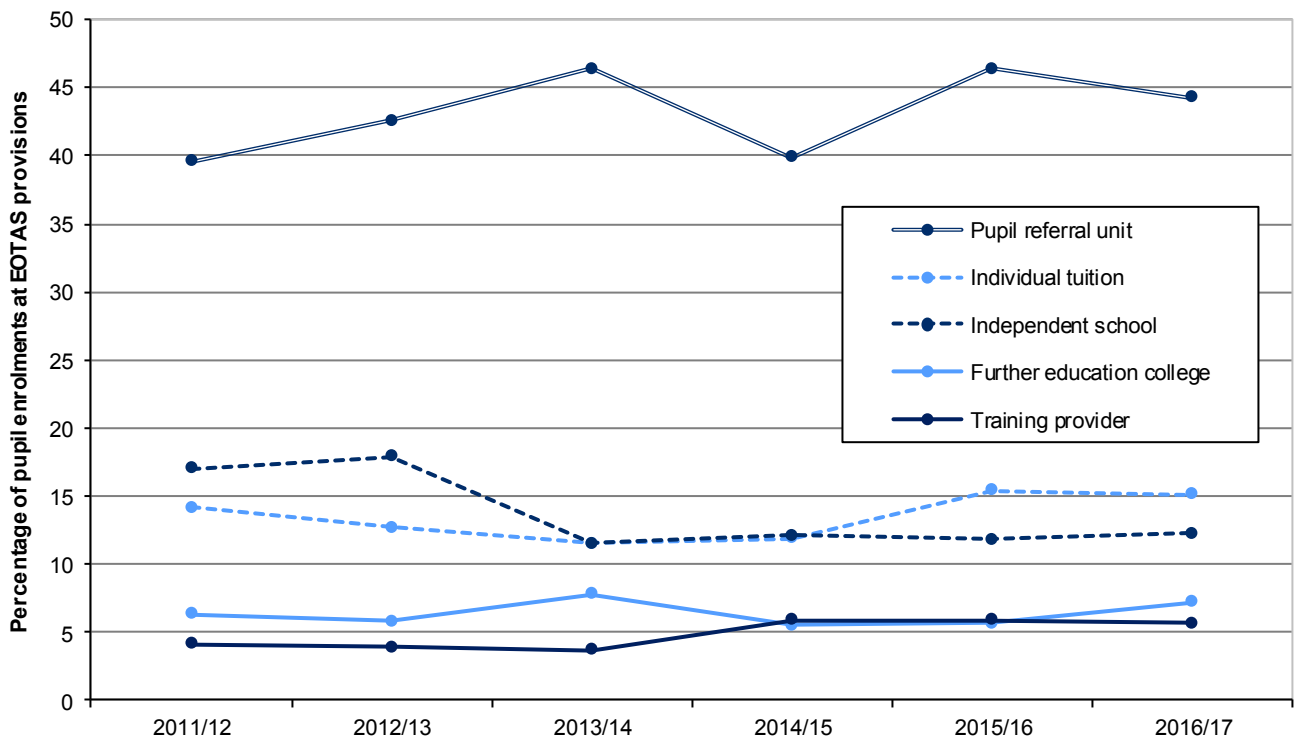

Chart 3: Percentage of pupil enrolments, by educational provision, 2011/12 - 2016/17

Chart 3 shows how the percentages of pupil enrolments in EOTAS provision have changed since 2011/12.

- Pupil referral units have been the most frequently-used EOTAS provision since 2011/12. Their usage peaked in 2013/14, fell in 2014/15 and then rose again in 2015/16. During 2016/17, Pupil referral unit usage decreased.
- In 2016/17 the use of individual tuition decreased, while the use of independent schools as EOTAS provision increased. In 2016/17, Individual tuition was the second most popular provision for EOTAS pupils as was the case in 2015/16.
- In 2016/17, further education colleges were the fourth and training providers were the fifth most popular education provisions used for EOTAS pupils.

Pupil Level Annual School Census, Welsh Government

(a) Age as on 31 August 2016.

(b) Figures relate to pupils educated at only one PRU and include pupils receiving other EOTAS provisions or being recorded as having 'subsidiary' enrolment status at a maintained or special school in the 2016/17 Pupil-Level Annual School Census (PLASC), but exclude those with 'main' or 'current' enrolment in a maintained or special school in PLASC.

(c) Figures relate to pupils educated at more than one PRU or educated at a PRU while having 'main' or 'current' enrolment status at a maintained or special school in the 2016/17 PLASC.

Key points

EOTAS pupils registered at PRUs:

- 663 pupils were registered at a single PRU.
- 241 pupils were dually registered at a PRU.

- During the 2016/17 census week 663 EOTAS pupils were singly registered at a pupil referral unit (PRU). A little less than three quarters of these pupils were boys.
- In Table 3 it was seen that the rate of pupils aged 11-15 whose main education is other than at school increased as the pupils' age increase. A similar trend can be seen in enrolments at pupil referral units. The number of pupils registered at PRUs increases with each age group from age 11 up to age 15.
- 241 pupils were dually registered at a PRU during the 2016/17 census week. This means that they were either attending more than one PRU or were on roll at one PRU but receiving their main education in a maintained school.

Table 9: Number of pupils attending pupil referral units in Wales, by local authority, 2016/17

Local Authority (a)	Pupils who are registered at a single PRU (b)			Pupils who are dually registered at a PRU (c)

Sources: EOTAS Pupil Census, Welsh Government
Pupil Level Annual School Census, Welsh Government

(a) Refers to the local authority in which pupils attended PRUs, not the local authority funding the provision.

(b) Figures relate to pupils educated at only one PRU and include pupils receiving other EOTAS provisions or being recorded as having 'subsidiary' enrolment status at a maintained or special school in the 2016/17 Pupil-Level Annual School Census (PLASC), but exclude those with 'main' or 'current' enrolment in a maintained or special school in PLASC.

(c) Figures relate to pupils educated at more than one PRU or educated at a PRU while having 'main' or 'current' enrolment status at a maintained or special school in the 2016/17 PLASC.

- Rhondda Cynon Taf had the most pupils registered at a single pupil referral unit (87 pupils).
- Gwynedd, Neath Port Talbot and Merthyr Tydfil had no pupils on roll at a pupil referral unit during the 2016/17 census week.

Table 10: Number of pupils of compulsory school age educated at home, by local authority, 2011/12-2016/17 (a)

Sources: EOTAS Pupil Census, Welsh Government

(a) Data relate to pupils aged 5 to 15 on 31 August before the start of the academic year. Where local authorities do not know a pupil's age they were asked to provide an estimate.

(b) Rate per 1,000 pupils aged 5-15 on 31 August before the start of the academic year. The denominator includes pupils whose main education is other than at school, pupils who had 'main' or 'current' enrolment status in the January PLASC and pupils who are known to be electively home educated.

".." means that the data item is not available

Key points

Electively home educated pupils in 2016/17:

- 1,724 pupils were electively home educated.
- Ceredigion had the highest rate of elective home educated pupils.

- In the 2016/17 academic year 1,724 children were known to be electively home educated in Wales. This means that the parents of these pupils decided to educate their children at home instead of sending them to school.
- The rate of elective home educated pupils remains the same in 2016/17. In 2011/12, 2.7 out of 1,000 pupils were electively home educated, but by 2015/16 this value had increased to, and remains at, 4.6 out of 1,000 pupils. The increase between 2014/15 and 2015/16 (an increase of 0.7 percentage points) was the largest increase since 2011/12.
- The Vale of Glamorgan had the lowest rate of electively home educated children (1.9 per 1,000 pupils) while Ceredigion had the highest rate (18.4 per 1,000 pupils). Ceredigion has had the highest rate of electively home educated children since 2011/12 and its rate is now almost double that of the next highest authority, Pembrokeshire.
- As parents notify their local authority that they are home educating their children on a voluntary basis (unless they have withdrawn their child from school), these data may not include all electively home educated children).

Notes

Context

Policy/operational

Local authorities are required to provide suitable education at school or otherwise than at school for those children of compulsory school age who, by reason of illness, exclusion from school or otherwise, may not for any period receive suitable education unless such arrangements are made for them.

In practice, local authorities respond to that duty in widely varying ways, relating to their individual circumstances, such as their geography, socio-economic situation and educational policies. In September 2015 the Welsh Government established an EOTAS Task and Finish Group, chaired by former Estyn Chief Inspector Ann Keane. The Task and Finish Group has been asked to develop practical solutions for implementing the recommendations made by the University of Edinburgh, the Children's Commissioner for Wales and Estyn.

Data source

The EOTAS Pupil Census is carried out annually and collects data on pupils educated other than at school from local authorities electronically via a secure website. The collection is carried out by the school statistics team in Knowledge and Analytical Services within the Welsh Government.

Key quality information

This section provides information about the quality of the statistics in this release in five areas: Relevance, accuracy, timeliness and punctuality, accessibility and clarity, and comparability and coherence.

Relevance

The statistics are used both within and outside the Welsh Government to monitor educational trends and as a baseline for further analysis of the underlying data. Some of the key users are:

- Ministers and the Members Research Service in the National Assembly for Wales
- other government departments
- local authorities and schools
- Estyn, Her Majesty's Inspectorate of Education and Training in Wales
- The Department for Education and Skills in the Welsh Government
- other areas of the Welsh Government
- the research community
- students, academics and universities
- individual citizens, private companies and the media.

These statistics are used in a variety of ways. Some examples of these are:

- to advise Ministers
- to inform the education policy decision-making process in Wales

- to inform Estyn during school inspections
- to assist in research in educational attainment.

Accuracy

The Welsh Government works closely with local authorities in order to ensure all data are validated before tables are published. Data are collated into an electronic return and submitted to the Welsh Government through DEWi, a secure online data transfer system developed by the Welsh Government. Various stages of automated validation and sense-checking are built into the process to ensure a high quality of data.

Starting in 2011/12, following the collection of the data an additional validation period was carried out in which local authorities were sent summary tables of their data and asked to check that they were correct. While most of the data were confirmed to be correct, these checking periods highlighted problems with several local authorities' data which were resolved, further improving the accuracy of the data.

Timeliness and punctuality

DEWi was available for uploading files on 10 January 2017, with local authorities asked to submit data for all pupils receiving or awaiting local authority-funded education outside of the maintained school environment during the census week of 9 to 13 January 2016. Local authorities were then asked to validate their data within the validation period, which closed on 28 June 2017.

Accessibility and clarity

This Statistical First Release is pre-announced and then published on the Statistics section of the Welsh Government's website.

Comparability and coherence

Tables 8 and 9 contain the number of pupils only on roll at Pupil Referral Units (PRUs) in Wales by gender, age and local authority, which in previous years have been published in the Welsh Government's publication entitled 'Schools in Wales: General Statistics.' Prior to 2009/10 the figures for this table were collected directly from PRUs via the STATS1 form. Tables 8 and 9 are now based upon data from the EOTAS Pupil Census and the January Pupil-Level Annual School Census. Because of the change in methodology used, the number of pupils that would have been reported as only being on roll at a PRU in the STATS1 form may differ slightly from those that have been produced for this statistical first release.

In the 2009/10 edition of this release Table 4 presented the number of pupils only registered at a PRU (which included pupils registered at more than one PRU) and the number of pupils registered at a PRU and other educational institutions. To meet with user demand, this table (now Table 8) was changed in the 2010/11 edition to present the number of pupils only registered at a single PRU and the number of pupils dual registered at more than one PRU or at a PRU and another maintained school. The new definitions have also been used in Table 9 and match the definitions previously used when presenting the number of pupils attending PRUs. Since Table 4 in the 2009/10 release and the same table in subsequent releases have different definitions for single

and dual registered pupils it is not recommended that they be compared. Comparable data are available from the school statistics team within the Welsh Government on request.

Tables and charts in this statistical first release contain data about different groups of EOTAS pupils as defined in the 'Definitions' section below. Whether the tables and charts are referring to EOTAS pupils whose main education is other than at school, whose main education is at a maintained school or all EOTAS pupils is clearly indicated, so before comparing two tables or charts please check that they are referring to the same group of EOTAS pupils.

Pupils by age ([Table 3](#)) and by SEN ([Table 4](#)) can be set in context by comparing to the general school population. The relevant data can be found in the publication of final school census results here: [Schools' census results](#)

Due to the fact that Pembrokeshire did not provide elective home education data by gender between 2010/11 and 2011/12 and Isle of Anglesey didn't provide these data by age in 2012/13 it was decided to remove the table presenting these data by age and gender because of issues with comparability between years. However, these data are available from the Welsh Government on request. In addition to this, Caerphilly did not provide any electively home educated pupil data in 2012/13, whereas it did in previous years. During 2016/17, Carmarthenshire did not provide any electively home-educated pupil data. Caution should therefore be used when comparing these data with other years.

Definitions

Coverage

The information in this Statistical First Release relates to pupils receiving local authority-funded education outside of the mainstream school environment during a census week each January and the number of pupils of compulsory school age (aged 5 to 15 on 31 August before the start of the academic year) known by local authorities to be electively home educated. For the 2016/17 academic year the census week was 9 to 13 January 2017.

In 2016/17, data were received on 1,972 pupils receiving education other than at school from all 22 local authorities in Wales. Of the 1,972 pupils receiving EOTAS provision 570 were recorded in the January 2017 Pupil-Level Annual School Census as having 'main' or 'current' enrolment status in maintained primary, secondary or special schools and were therefore considered to be receiving their main education in a maintained school. The remaining 1,402 pupils were considered to be receiving their main education other than at school. The focus of this Statistical First Release is on pupils mainly educated other than at school, but to give a complete picture it was necessary to include all pupils receiving EOTAS provision in [Tables 1, 8](#) and [9](#).

Local authorities reported that in 2016/17, 1,808 pupils were known to be electively home educated. Of these pupils 84 were known to not be of compulsory school age so they were excluded from the figures contained in this release, leaving a total of 1,724 pupils.

From 2010/11 to 2011/12 Pembrokeshire did not provide a gender breakdown of their electively home educated pupils. In 2012/13 Isle of Anglesey did not provide the age of their electively home educated pupils and in 2013/14 Carmarthenshire did not provide the age for 9 of their electively

home educated pupils, meaning that it was not possible to determine whether they were of compulsory school age or not. In 2012/13 Caerphilly did not provide any information regarding electively home educated pupils. During 2016/17, Carmarthenshire did not provide any electively home-educated pupil data. Caution should therefore be used when comparing these data with other years. It is not mandatory for local authorities to provide this information.

Definitions of pupils educated other than at school

In the context of this statistical release:

- a pupil being educated other than at school (EOTAS) was recorded as receiving or awaiting education provision funded by the local authority otherwise than in a maintained school setting during the census week of the EOTAS Pupil Census. A pupil may also be included in this category if:
 - they attend an independent or non-maintained special school for which the local authority is responsible for paying all or part of the tuition fees;
 - they are placed in a maintained school as part of their education funded by the local authority.
- the phrase EOTAS pupil is used to refer to a pupil educated other than at school as defined above.
- an EOTAS pupil whose main education is other than at school is a pupil being educated other than at school who is either not on roll at a maintained school or is recorded as having a 'subsidiary' enrolment status at a maintained school in the January Pupil-Level Annual School Census.
- an EOTAS pupil whose main education is in a maintained school is a pupil being educated other than at school with a 'main' or 'current' enrolment status in the January Pupil-Level Annual School Census.
- pupils being electively home educated are children whose parents have decided to educate at home rather than at school and are not classed as EOTAS pupils. Although by definition they are educated other than at school, education for these pupils is not funded by the local authority and there is no legal basis under which the local authority can collect personal data about them. Data on electively home educated pupils are restricted to headcounts by local authority and are provided voluntarily by the local authority. Figures related to pupils electively home educated have been reported in separate tables to those relating to EOTAS pupils.

Free school meal (FSM) eligibility

Children whose parents receive the following support payments are eligible to receive free school meals in maintained schools in Wales:

- Income Support
- Income Based Jobseekers Allowance Support under Part VI of the Immigration and Asylum Act 1999

- Income-related Employment and Support Allowance
- Child Tax Credit, provided they are not entitled to Working Tax Credit and their annual income does not exceed £16,190
- Guarantee element of State Pension Credit
- Working Tax Credit 'run-on'- the payment someone may receive for a further four weeks after they stop qualifying for Working Tax Credit
- Universal Credit.

Children who receive income related employment and support allowance, Universal Credit, Income Support or Income Based Job Seekers Allowance in their own right are also eligible to receive Free School Meals.

Pupils should only be recorded as eligible if they have applied for free school meals to the local authority and (1) the relevant authority has confirmed their eligibility, or (2) final confirmation of eligibility is still awaited but the school has seen documents that strongly indicate eligibility.

Special educational needs (SEN)

Pupils known to have special educational needs can be in one of the following categories:

- **School Action:** When a class or subject teacher identifies that a pupil has special educational needs they provide interventions that are additional to, or different from, those provided as part of the school's usual curriculum.
- **School Action Plus:** When the class or subject teacher and the SEN Co-ordinator are provided with advice or support from outside specialists, so that alternative interventions additional to, or different from, those provided for the pupil through 'School Action' can be put in place.
- **Statement:** Pupils for whom the local authority maintains a statement of special educational needs under Part IV of the Education Act 1996. A statement may be issued by the local authority after assessment of a child's needs.

Rounding and symbols

In tables where figures have been rounded to the nearest final digit, there may be an apparent discrepancy between the sum of the constituent items and the total shown.

The following symbols have been used throughout this publication:

- . data item is not applicable.
- .. data item is not available.
- data item is not zero, but would be rounded to zero because less than half the final digit is shown.
- * data item is disclosive.

National Statistics status

The [United Kingdom Statistics Authority](#) has designated these statistics as National Statistics, in accordance with the Statistics and Registration Service Act 2007 and signifying compliance with the [Code of Practice for Official Statistics](#).

National Statistics status means that official statistics meet the highest standards of trustworthiness, quality and public value.

All official statistics should comply with all aspects of the Code of Practice for Official Statistics. They are awarded National Statistics status following an assessment by the UK Statistics Authority's regulatory arm. The Authority considers whether the statistics meet the highest standards of Code compliance, including the value they add to public decisions and debate.

It is Welsh Government's responsibility to maintain compliance with the standards expected of National Statistics. If we become concerned about whether these statistics are still meeting the appropriate standards, we will discuss any concerns with the Authority promptly. National Statistics status can be removed at any point when the highest standards are not maintained, and reinstated when standards are restored.

Well-being of Future Generations Act (WFG)

The Well-being of Future Generations Act 2015 is about improving the social, economic, environmental and cultural well-being of Wales. The Act puts in place seven well-being goals for Wales. These are for a more equal, prosperous, resilient, healthier and globally responsible Wales, with cohesive communities and a vibrant culture and thriving Welsh language. Under section (10)(1) of the Act, the Welsh Ministers must (a) publish indicators ("national indicators") that must be applied for the purpose of measuring progress towards the achievement of the Well-being goals, and (b) lay a copy of the national indicators before the National Assembly. The 46 national indicators were laid in March 2016.

Information on indicators and associated technical information - [How do you measure a nation's progress? - National Indicators](#)

Further information on the Well-being of Future Generations (Wales) Act 2015 can be found [here](#).

The statistics included in this release could also provide supporting narrative to the national indicators and be used by public services boards in relation to their local well-being assessments and local well-being plans.

Further details

The document is available at:

<http://gov.wales/statistics-and-research/pupils-educated-other-than-school/>

England publishes the number of pupils on roll at Pupil Referral Units in the statistical release entitled 'Schools, pupils and their characteristics: January 2017'. The latest available statistics can be found here: [Schools, pupils and their characteristics: January 2017](#)

Next update

July 2018 (provisional)

The next update will cover the 2017/18 academic year.

We want your feedback

We welcome any feedback on any aspect of these statistics which can be provided by email to school.stats@gov.wales.
