

Adults receiving care and support census 2023-24

Background

The Adults receiving care and support census is based on the definition of eligible adults who have care and support, i.e. adults (aged 18 or over) who have a care and support plan.

Data should be submitted to the Welsh Government annually and reflect a financial years' worth of data. The first year will detail adults receiving care and support in the period 1 April 2023 to 31 March 2024.

The Adults receiving care and support census was developed with local authorities and other key stakeholders in 2022.

Guidance Notes for completion and submission

The Adults receiving care and support census 2023-24 form should be used to record individual data for all adults who have received care and support in the year 2023-24.

The collection is split into two sections. Section 1, Core Details, is to be completed for all adults who have had a care and support plan at any point in the financial year. Section 2, Care and Support Details is to only be completed for those with an active care and support plan on 31 March 2024.

For those adults whose care and support plans ended mid-year, please provide details as they were at the point the care and support plan ended.

Data requirements

For Section 1, local authorities are required to submit data for adults who had a care and support plan at any point during the collection year (2023-24). Therefore, the return should include any **adult who had a care and support plan (Part 4)** during the collection period, regardless of the time the adult had a plan.

An individual return is required for each adult receiving care and support in the collection year, regardless as to whether that individual has an active care and support plan on 31 March.

For Section 2, local authorities are required to only submit data for adults who had an active care and support plan at the end of the collection year (i.e. 31 March 2024).

True / False fields: There are a number of items within the Adults receiving care and support census that can be either true or false. The format for the Adults receiving care and support census is 1 for the true state, and 0 for the false state. However, users of management information systems may be presented with a number of ways of recording this such as with check boxes or a

suitable drop-down list. The export functionality for any system will therefore have to convert these fields accordingly. Blank items will be assumed to indicate that data is not available.

Questions about whether the adult “has” or “had” specified attributes, e.g. health or disability problems, should be answered with reference to the census date of 31 March 2024 or at the point when the adult’s care and support plan closed. This means that the attribute is current according to the information available or on 31 March 2024 or at the point when the adult’s care and support plan closed.

A full list of data items is in Annex A. The following notes give further detailed guidance for specific sections.

Local authority adult identifier

This must be a unique ID for each adult, and it should be retained from year to year. The local authority adult ID can only contain alphabetic or numeric characters. It must be the same ID that is used for other purposes.

If you are planning to change the local authority adult ID, either for a single adult or for a whole group of adults, it will prevent the Welsh Government from analysing across different census years. For this reason, any proposal to change IDs should be discussed with Welsh Government at an early stage and in advance of any changes.

Date of birth

The date of birth should be provided in the format DD/MM/YYYY.

If the exact date of birth is not known, record an approximate date of birth based on the adult's estimated age at date of referral.

Gender

Gender is how the individual identifies themselves, not sex at birth.

Disability

Record whether an adult has a disability on 31 March 2024 (or for closed cases at the time the adult's care and support plan was closed). For the purposes of this data item, the definition of disabled follows that of Section 6 of the Equality Act 2010, which states that:

"A person (P) has a disability if -

(a) P has a physical or mental impairment, and

(b) The impairment has a substantial and long-term adverse effect on P's ability to carry out normal day-to-day activities."

If 1 is entered for "none", no other entries should be made in this section.

If 0 is entered for “none”, then for each of the specified disability types that apply, enter 1 if the adult had a disability of this type on 31 March 2024 (or for closed cases, at the time the adult’s care and support plan was closed).

Enter 0 if the adult did not have a disability of this type on 31 March 2024 (or for closed cases, at the time the adult’s care and support plan was closed).

Categories of impairment:

- Sight
- Hearing
- Physical (e.g. gross motor, manual dexterity or mobility)
- Mental illness (not dementia or neurodevelopmental condition)
- Dementia
- Neurodevelopmental condition (e.g. Autistic Spectrum Condition, Attention Deficit Hyperactivity Disorder, Tourette’s syndrome or learning disability)
- Other (not listed)
- None

Adults may have multiple disabilities, in which case more than one category can be entered as true. There may be a small number of adults who are disabled, but do not have any of the specified disabilities. For these adults, please enter 1 for Other (not listed) and provide the disability in the box provided.

Language

Record the adult’s preferred language; this is the language the adult prefers to use to communicate with others. If there are differences between the preferred written or spoken language, use the language in which care and support is provided. Typically, this will be the preferred spoken or face-to-face language. See Annex B – Code List Language.

Where a plan is open on 31 March, record the language preference as of 31 March; where a plan has closed, record the language preference as of the date of closure.

Date latest continuous period of care and support began

This data item seeks to capture the date that the latest continuous period of care and support began. For many adults this date may be a significant time in the past. Reviews of their care and support plan may have occurred throughout this period, and their needs may have changed.

This date should be recorded as DD/MM/YYYY.

For plans more than 3 years old, an estimated date will be accepted.

For cases that transfer in from another local authority, please use the date of transfer.

If there is no clear start date for the care and support plan, please use the date of the assessment being completed.

Care and support plan active on 31 March

Enter 1 if the care and support plan was active on 31 March 2024

Enter 0 if the care and support plan was not active on 31 March 2024

Date care and support plan closed

For those adults who have 0 for Care and Support plan active on 31 March recorded, please enter the date the care and support plan was closed. If the plan is still active on 31 March, then leave blank.

This date should be recorded as DD/MM/YYYY

Use the date of the latest closure to social services if there is more than one period of care and support during the year. For cases that transfer out to another local authority, please use the date of transfer.

Reason for care and support plan closure

For those adults whose care and support plans closed during the year and have been recorded above, please enter the most appropriate reason the care and support plan was closed from the list below:

- 1 – Service completed
- 2 – Transferred/moved to another local authority
- 3 – Step down to preventative services (and no longer requires ongoing care and support)
- 4 – Moved to health service (e.g. Continuing Healthcare)
- 5 – Refused service
- 6 – Died
- 7 – Other

Only one category from the above may be chosen. This cannot be left blank for those adults who do not have an active care and support plan on 31 March 2024.

Adult Safeguarding

For adults who have started formal safeguarding procedures.

Enter 1 if the adult had enquiries in the collection year where it was determined additional action was required and resulting in a care and support protection plan

Enter 0 if the adult did not have enquiries in the collection year where it was determined additional action was required and resulting in a care and support protection plan

Category of safeguarding

This is intended to record safeguarding categories for all adults undergoing safeguarding, **regardless of when enquiries were made**. Record the category or categories of abuse and neglect recorded on the adult's Care and Support Protection Plan (where details of abuse or neglect were included).

The category used should indicate the primary concern at the point additional action was identified. More than one category may apply.

For each of the specific categories that apply, enter 1 if the category was present at the point additional action was identified. Enter 0 if the category was not present at the point additional action was identified.

- Neglect
- Physical
- Sexual

Therefore, it is only recorded here if it occurs in isolation without other types of abuse. If 1 is entered for “emotional/psychological (only)”, all other categories should be recorded as 0.

Leave this field blank if the local authority did not consider it necessary to protect the adult from abuse or neglect or a risk of abuse or neglect during the year.

Please select what types of care and support the individual is currently receiving (i.e. on 31 March). An individual may be provided with more than one type of care and support, please select all types that the individual is receiving.

It is recognised that there can be multiple unpaid (informal) carers known to the client and actively providing support. For the purposes of the collection, a value of 'Yes' would indicate that at least one carer is known to the client on 31 March.

This information should be based on the most recent assessment or review.

Enter 1 if the individual has one or more known carer.

Enter 0 if the individual has no identified carer.

Caring responsibilities

Events

As part of the individual's ongoing care record, the number of assessments, re-assessments and reviews should be recorded. Please indicate how many of each of these events have occurred in the reporting year for the adult receiving care and support.

- Number of assessments (including any specialist assessments)
