National Survey for Wales

2026-27 pilot questionnaire

CONTENTS

Question sources

The question's previous inclusion in the National Survey is marked under the question / variable label. For example, NS 1920 indicates the question was last included in the National Survey in 2019-20. NS 2425 indicates the question is included in the National Survey for the first time in 2023-24. Where no other source is marked, this indicates a new question has been developed specifically for the National Survey.

Questions are taken from existing surveys where possible. Where relevant, the source is also marked under the question / variable label and the year of the source survey is given (e.g. SHS 2016 refers to the Scottish Household Survey in 2016). Where the question or answer options differ from the original source, the question source is marked with an "a" (adapted).
