

# Adults receiving care and support census 2026-27

## Background

The Adults receiving care and support census is based on the definition of eligible adults who have care and support, i.e. adults (aged 18 or over) who have a care and support plan. This is set out in the [Social Services and Well-being \(Wales\) Act 2014](#).

Some adults may have a Care and Treatment plan (as set out in [The Mental Health \(Care Co-ordination and Care and Treatment Planning\) \(Wales\) Regulations 2011](#)) but are receiving social services care and support. This would mean if the adult had an **allocated social worker, or their care coordinator is from social services department**. Alternatively, this may apply if **social services are paying, or has paid, for their care and support**, which may be through commissioning a service. If this is the case, then include them in this census. However, only do so if the local authority social services department has access to the data necessary for completion, i.e. **if the data is already held by the local authority, rather than with the health board**.

Data should be submitted to the Welsh Government annually and reflect a financial years' worth of data for adults receiving care and support in the period 1 April 2026 to 31 March 2027.

The Adults receiving care and support census was developed with local authorities and other key stakeholders in 2022.

## Guidance Notes for completion and submission

The Adults receiving care and support census 2026-27 form should be used to record individual data for all adults who have received care and support in the year 2026-27.

The collection is split into two sections. Section 1, Core Details, is to be completed for all adults who have had a care and support plan at any point in the financial year. Section 2, Care and Support Details is to only be completed for those with an active care and support plan on 31 March 2027.

For those adults whose care and support plans ended mid-year, please provide details as they were at the point the care and support plan ended.

Do not include adults paying privately for their own care and support (self-funded). If after 31 March of the collection year it arises that an individual was receiving self-funded care, do not retrospectively alter the census return data; it is intended as a snapshot in time.

## Data requirements

For Section 1, local authorities are required to submit data for adults who had a care and support plan at any point during the collection year (2026-27). Therefore, the return should include any

**adult who had a care and support plan (Part 4)** during the collection period, regardless of the time the adult had a plan.

An individual return is required for each adult receiving care and support in the collection year, regardless as to whether that individual has an active care and support plan on 31 March.

For Section 2, local authorities are required to only submit data for adults who had an active care and support plan at the end of the collection year (i.e. 31 March 2027).

True / False fields: There are a number of items within the Adults receiving care and support census that can be either true or false. The format for the Adults receiving care and support census is 1 for the true state, and 0 for the false state. However, users of management information systems may be presented with a number of ways of recording this such as with check boxes or a suitable drop-down list. The export functionality for any system will therefore have to convert these fields accordingly. Blank items will be assumed to indicate that data is not available.

Questions about whether the adult “has” or “had” specified attributes, e.g. health problems or impairment, should be answered with reference to the census date of 31 March 2027 or at the point when the adult’s care and support plan closed. This means that the attribute is current according to the information available or on 31 March 2027 or at the point when the adult’s care and support plan closed.

A full list of data items is in Annex A. The following notes give further detailed guidance for specific sections.

This return should be uploaded, validated, and submitted on Objective Connect by 24 September 2027. If you have any enquiries regarding the content of the form, please [contact](#) the data collection team.

## Core Details

The questions below are to be completed for all adults who have had a care and support plan at any point in the financial year 2026-27.

### Local authority code

- 512 Isle of Anglesey
- 514 Gwynedd
- 516 Conwy
- 518 Denbighshire
- 520 Flintshire
- 522 Wrexham
- 524 Powys
- 526 Ceredigion
- 528 Pembrokeshire
- 530 Carmarthenshire
- 532 Swansea
- 534 Neath Port Talbot
- 536 Bridgend
- 538 Vale of Glamorgan
- 540 Rhondda Cynon Taf
- 542 Merthyr Tydfil
- 544 Caerphilly
- 545 Blaenau Gwent
- 546 Torfaen
- 548 Monmouthshire
- 550 Newport
- 552 Cardiff

### Local authority adult identifier

This must be a unique ID for each adult, and it should be retained from year to year. The local authority adult ID can only contain alphabetic or numeric characters. It must be the same ID that is used for other purposes.

If you are planning to change the local authority adult ID, either for a single adult or for a whole group of adults, it will prevent the Welsh Government from analysing across different census years. For this reason, any proposal to change IDs should be discussed with Welsh Government at an early stage and in advance of any changes.

### Surname

The adult's latest known surname should be provided, as currently recorded.

## **First name(s)**

The adult's latest known first name should be provided, as currently recorded. If the individual has multiple first name, please provide all names with a space between the names.

## **Adult's home postcode**

The latest known postcode of the address where the adult was living. Enter the home postcode of the adult in the following format e.g. CF10 4SD.

If the adult is living in a residential care home, and this is their main residence, please provide the postcode of the care home.

## **Date of birth**

The date of birth should be provided in the format DD/MM/YYYY.

If the exact date of birth is not known, record an approximate date of birth based on the adult's estimated age at date of referral.

## **Gender**

Gender is how the individual identifies themselves. Their gender identity may not be the same as the sex on their birth certificate. Individuals can refuse to provide this information.

- 1 Male
- 2 Female
- 3 Other
- 4 Not disclosed or unknown

## **Ethnicity**

Ethnicity should be determined by first asking the adult about their ethnic identity. If they are unable, ask their primary carer.

WTE1 - Gypsy or Irish Traveller

WTE2 - Roma

WTE3 - Any other White background (including English, Welsh, Scottish, Northern Irish or British)

MIXD1 - White and Black Caribbean

MIXD2 - White and Black African

MIXD3 - White and Asian

MIXD4 - Any other mixed background / multiple ethnic background

ASAB1 - Indian

ASAB2 - Pakistani

ASAB3 - Bangladeshi

ASAB4 - Chinese

ASAB5 - Any other Asian background

BBAC1 - Caribbean

BBAC2 - African

BBAC3 - Any other Black background

OOTH1 - Arab

OOTH2 - Any other ethnic group

UNKN1 - Unknown

## **Disability**

For the purposes of this data item, the definition of impairment follows Section 6(1) of the Equality Act 2010, which states that:

“A person (P) has a disability if -

(a) P has a physical or mental impairment, and

(b) The impairment has a substantial and long-term adverse effect on P's ability to carry out normal day-to-day activities.”

Welsh Government adopts the Social Model of Disability. According to the social model of disability, impairment is what has historically been referred to as a “disability” or a health condition.

During a social care assessment, the adult's impairments will be considered to determine if that adult considers themselves to be disabled. Record whether an adult has a disability on 31 March 2027.

Where a plan is open on 31 March, record whether the adult has a disability as of 31 March; where a plan has closed, record the known disability as of the date of closure.

### **Does the adult have a disability?**

- Yes
- No
- Unknown

If No or Unknown is selected, no other entries should be made in this section.

If Yes is selected, then for each of the specified impairment types that apply, enter 1 if the adult had an impairment of this type on 31 March 2027. Where a plan is open on 31 March, record whether the adult has an impairment as of 31 March; where a plan has closed, record the known impairment as of the date of closure.

Enter 0 if the adult did not have an impairment of this type on 31 March 2027.

### **Categories of impairment:**

- Sight
- Hearing
- Physical (e.g. gross motor, manual dexterity or mobility)
- Mental illness (not dementia or neurodevelopmental condition)
- Dementia

- Neurodevelopmental condition (e.g. Autistic Spectrum Condition, Attention Deficit Hyperactivity Disorder, Tourette's syndrome or learning disability)
- Other (not listed)
- Unknown

Adults may have multiple impairments, in which case more than one category can be entered as true. There may be a small number of adults who are disabled, but do not have any of the specified impairments. For these adults, please enter 1 for Other (not listed). Where an adult has a disability, but the impairment is not known, please enter Unknown.

## Language

Record the adult's preferred language; this is the language the adult prefers to use to communicate with others. If there are differences between the preferred written or spoken language, use the language in which care and support is provided. Typically, this will be the preferred spoken or face-to-face language. See Annex B – Code List Language.

Where a plan is open on 31 March, record the language preference as of 31 March; where a plan has closed, record the language preference as of the date of closure.

## Date latest continuous period of care and support began

This data item seeks to capture the date that the latest continuous period of care and support began; for many adults this date may be a significant time in the past. Reviews of their care and support plan may have occurred throughout this period, and their needs may have changed.

This date should be recorded as DD/MM/YYYY.

For plans more than 3 years old, an estimated date will be accepted.

For cases that transfer in from another local authority, please use the date of transfer.

If there is no clear start date for the care and support plan, please use the date of the assessment being completed.

If an adult moved from children's to adults' services, please use the date the transfer was made from children's to adults' services. For some local authorities, this may be the date of the adult's 18<sup>th</sup> birthday if the care and support plan is automatically transferred between departments.

## Care and support plan active on 31 March

Enter 1 if the adult had an active care and support plan on 31 March 2027

Enter 0 if the adult did not have an active care and support plan on 31 March 2027

## Date care and support plan closed

For those adults who have a plan close within the reporting year, and do not have an active care and support plan on 31<sup>st</sup> March, please enter the date the care and support plan was closed.

A plan closure is when the local authority is no longer providing any care and support to the adult. A local authority may close a plan, but not the case. Do not provide a date of closure if the adult receives continuous care through the collection year. If a plan closed and later a new plan opened

within the same collection year and was in place on 31<sup>st</sup> March, also do not provide a date of closure.

This item is interested in whether an individual *continues* to receive care and support as of 31<sup>st</sup> March of the collection year, regardless of whether there was a gap during the collection year in which they were not receiving care and support.

This date should be recorded as DD/MM/YYYY

Use the date of the latest plan closure if there is more than one period of care and support during the year. For cases that transfer out to another local authority, please use the date of transfer.

## Reason for care and support plan closure

For those adults whose care and support plans closed during the year and have been recorded above, please enter the most appropriate reason the care and support plan was closed from the list below:

- 1 – Service completed or ended (e.g. reablement or relief care)
- 2 – Transferred/moved to another local authority
- 3 – Step down to preventative services (and no longer requires ongoing care and support)
- 4 – Moved to health service (e.g. Continuing Healthcare or long-term hospital admission)
- 5 – Moved to self-funding (i.e. local authority involvement ended and care and support plan ended)
- 6 – Refused service
- 7 – Died
- 8 – Other

Only one category from the above may be chosen. This cannot be left blank for those adults for whom there is a *date care and support plan closed* during the collection year.

## Adult Safeguarding

For adults who have started formal safeguarding procedures.

Enter 1 if the adult had enquiries in the collection year where it was determined additional action was required, resulting in a care and support protection plan.

Enter 0 if the adult did not have enquiries in the collection year where it was determined additional action was required, resulting in a care and support protection plan.

## Category of safeguarding

This is intended to record safeguarding categories for all adults undergoing safeguarding, with a care and support protection plan during the year, **regardless of when enquiries were made**. Record the category or categories of abuse and neglect recorded on the adult's Care and Support Protection Plan (where details of abuse or neglect were included).

The category used could indicate the primary concern at the point additional action was identified. More than one category may apply. If multiple enquiries are made during the year enter 1 for all the recorded categories.

For each of the specific categories that apply, enter 1 if the category was present at the point additional action was identified. Enter 0 if the category was not present at the point additional action was identified.

- Neglect
- Physical
- Sexual
- Financial
- Emotional/Psychological (only)

Note that emotional/psychological abuse is considered always to occur if one of the other types of abuse occurs. Therefore, it is only recorded here if it occurs in isolation without other types of abuse. If 1 is entered for "emotional/psychological (only)", all other categories should be recorded as 0.

Leave this field blank if the local authority did not consider it necessary to protect the adult from abuse or neglect or a risk of abuse or neglect during the year.

## Care and Support details

The data items below are to be completed for only those adults with an active care and support plan as of **31 March 2027**.

### Residence

The type of residence for the individual on 31 March should be recorded. Please select the type of accommodation the adult is in on 31 March.

Enter 1 if the adult is in their own home (i.e. residing in the community). This includes where the adult is in a residential care home or supported accommodation **on a short-term placement or respite care** – but would typically reside at home. This applies to both local authority-provided and private care homes/supported accommodation. Adults in an Adult Placement Scheme (Shared Lives) should be recorded here.

Enter 2 if the adult is living in a residential care home or supported accommodation on a **long-term placement**. As above, this applies to both local authority-provided and private care homes/supported accommodation.

Enter 3 if the adult is currently being held in the secure estate. Only select 3 if the adult is being held for a term of **more than three months**.

Enter 88 if this information is not known.

If the individual is not living in a residential care home on a long-term placement or currently being held in the secure estate for a term of more than three months, then they are considered as living in their own home.

The responsible local authority is the local authority in which the secure estate is situated.

### Current Safeguarding

Enter 1 if the adult had an **active** care and support protection plan for adults on 31 March where the local authority considers it necessary to protect an adult from abuse or neglect or a risk of abuse or neglect.

Enter 0 if the adult did not have an **active** care and support protection plan for adults on 31 March where the local authority considers it necessary to protect an adult from abuse or neglect or a risk of abuse or neglect.

Enter 88 if this information is not known.

### Types of care and support

The types of care and support being currently provided, commissioned or funded by the local authority should be recorded and part of the ongoing record of care and support. Please select what types of care and support the individual is currently receiving (i.e. on 31 March). An individual may be provided with more than one type of care and support, please select all types that the individual is receiving.

For each type of care and support, enter 1 if this is currently being provided to the adult.

Enter 0 if the adult is not currently receiving this type of care and support.

If the adult is not currently receiving any of the listed types of care and support, enter 0 against each type of care and support.

Enter 88 if this information is not known.

Types of care and support:

- Domiciliary care
- Day care
- Respite care / Short breaks / Replacement care
- Adult Placement Scheme (Shared Lives)
- Supported accommodation / supported living
- Direct payments
- Adult care homes (without nursing)
- Adult care homes with nursing
- Reablement
- Other

**Domiciliary care** – Practical services that assist the person to function as independently as possible and/or continue to live in their home. Do not include reablement services that take place in a person's own home, this should be recorded as reablement.

**Day care** – Attendance at a day centre or in the community for care and/or meals.

**Respite care** – Care provided by the local authority to provide relief to the carer(s) and person being cared for, where the individual who receives care and support is temporarily accommodated away from their home or usual place of residence, e.g. in a residential home setting. The period of care should cover at least one night but should not exceed 3 months. Do not include temporary care home accommodation for those individuals awaiting a long-term package of care.

**Short breaks** – Care provided by the local authority to provide relief to the carer(s) and person being cared for, where a paid carer provides support in the person's home or usual place of residence. The period of care should cover one or more hours, but less than 24 hours or overnight.

**Adult Placement Scheme (Shared Lives)** – This is a scheme by which an adult lives with a carer in a long-term arrangement. Accommodation and support may be provided to one, two or, exceptionally, three adults placed with the agreement of an Adult Placement Scheme.

**Supported accommodation/supported living** – Care for people in their own home/place of residence for which they have their own tenancy agreement.

**Direct payments** – Monetary payments made by local authorities directly to adults for the purchase of care and support services.

**Adult care homes without nursing** – includes:

Local authority care home service – Local authority run establishment providing accommodation together with care as defined under the Regulation and Inspection of Social Care (Wales) Act 2016. Exclude people receiving respite care as a series of planned short-term breaks.

Independent sector care home services under contract - Privately run establishment providing accommodation together with personal care.

**Adult care home services with nursing** – Independent sector care homes under contract, providing accommodation together with personal and nursing care. Exclude people receiving respite care as a series of planned short-term breaks.

**Reablement** – some adults current receiving reablement as of 31<sup>st</sup> March, will not have a care and support plan. **Do not include these.** Only include those adults who have a current care and support plan who are also currently receiving reablement as of 31<sup>st</sup> March.

## **Has a known carer**

Whether the person receives support from an unpaid (informal) carer gives a holistic view of a person's support package. It is recognised that there can be multiple unpaid (informal) carers known to the client and actively providing support. For the purposes of the collection, a value of 'Yes' would indicate that at least one carer is known to the local authority on 31 March.

This information should be based on the most recent assessment or review.

Enter 1 if the individual has one or more known carer.

Enter 0 if the individual has no identified carer.

Enter 88 if this information is not known.

## **Caring responsibilities**

Please record whether the adult also has caring responsibilities. A carer is someone who provides or intends to provide care for an adult or disabled child.

Enter 0 if the adult has no caring responsibilities on 31 March.

Enter 1 if the adult has known caring responsibilities on 31 March **and** receives known, ongoing support as a carer.

Enter 2 if the adult has known caring responsibilities on 31 March but **does not or it is not known** whether they receive ongoing support as a carer.

Enter 88 if this information is not known.

An individual will have been offered a carer's assessment if they have caring responsibilities, regardless of whether they have taken up the offer of assessment and/or carer's support. This may be in the form of a dual care and support and carer's plan.

## Events

As part of the individual's ongoing care record, the number of assessments, re-assessments, and reviews completed should be recorded. Please indicate how many of each of these events have occurred in the reporting year for the adult receiving care and support.

- Number of assessments completed (which may include one or more specialist assessments)
- Number of re-assessments completed (which may include one or more specialist assessments)
- Number of reviews completed

This should **include** any assessments that incorporate detailed or comprehensive assessments within the process of assessment. Any specialist assessments undertaken as part of the comprehensive review process should not be counted as separate assessments. See AD/004 for more information.

This will indicate the resource required by an individual's care; it is not intended as a reflection of the complexity of an individual's needs.

Enter 88 if this information is not known.

# Annex A – List of data items

## Core details

Local authority code  
Local authority adult identifier  
Surname  
First name(s)  
Adult's home postcode  
Date of birth  
Gender  
Ethnicity  
Impairment – Sight  
Impairment – Hearing  
Impairment – Physical  
Impairment – Mental illness  
Impairment – Dementia  
Impairment – Neurodevelopmental condition
